COLLEGE PROFILE

About CCE

Christ College of Engineering (Autonomous), Irinjalakuda (CCE), established in 2015, is affiliated to APJ Abdul Kalam Technological University, Thiruvananthapuram, and is recognized by AICTE, New Delhi. This college was founded at a time when starting a new engineering college was not considered a sensible proposition. In its short span of existence, exceeding all expectations and proving all critics wrong, Christ College of Engineering (Autonomous) has managed to create ripples on the academic front in the university, so much so that today the college is being recognized as one of the best self-financing engineering colleges in Kerala. Staff and students are at the center of this success story. No stone is left unturned in ensuring that, along with academics, the students get the right amount of exposure required for tomorrow's successful global citizens, through the various initiatives held at this campus. With the kind of transformative learning model in place here, the college is well on its way to making a positive impact on our society and nation at large.

Vision

To be a premier technical institution that nurtures professionally competent and socially responsible engineers through quality education, training, and research.

Mission

- Implement state-of-the-art teaching-learning practices with qualified faculty and supportive infrastructure to impart knowledge in modern technologies.
- Create a quality education system that encourages faculty and students to involve in meaningful research for the benefit of society.
- Inculcate leadership qualities, ethical values and foster professionalism with the spirit of innovation and lifelong learning.

BOARD OF TRUSTEES

Sl. No.	Name	Designation	Mobile Number	Email
1	Fr. Dr. Jose Nandhikkara CMI	President	9448832280	nandhikkara@gmail.com
2	Fr. Lijo Brahmakulam CMI	Secretary	9148626442	lijopaulcmi@gmail.com
3	Fr. Sunny Punnelparambil CMI	Trustee Member	9447694975	davykavu@yahoo.com
4	Fr. Dr. Ginto Chirayath CMI	Trustee Member	8281895601	georgelallu63@yahoo.com
5	Fr. George Kallukkaran CMI	Trustee Member	8078382328	gthottan69@gmail.com
6	Fr. John Paliakara CMI	Managing Trustee	7025071115	paliyamj@yahoo.com
7	Fr. Dr. Urumeese Mundanmani CMI	Trustee Member	9447253873	smundan@gmail.com
8	Fr. Joy Peenickaparambil CMI	Trustee Member	7012927980	jpeeni@gmail.com
9	Fr. Dr. Jolly Andrews Malieckal CMI	Trustee Member	9495062923	jmalieckkal123@gmail.com
10	Fr. Dr. Milner Vithayathil CMI	Trustee Member	8547751814	vithayathilmilner@gmail.com

COLLEGE EXECUTIVE COMMITTEE

Sl. No.	Name	Designation	Mobile Number	Email
1	Fr. John Paliakara CMI	Executive Director	7025071115	paliyamj@yahoo.com
2	Fr. Dr. Urumeese Mundanmani CMI	Joint Director - Finance	9447253873	smundan@gmail.com
3	Fr. Dr. Milner Vithayathil CMI	Joint Director - Academics	8547751814	vithayathilmilner@gmail.com

4	Dr. Soloman P A	Principal	9447865261	principal@cce.edu.in
5	Dr. V. D. John	Vice Principal	9447245473	johnvd@cce.edu.in
6	Dr. Sijo M T	Director - Students Affairs	9847520278	director.studentaffairs@cce.edu.in
7	Dr. Manoj George	Director - Academics	9895169510	director.academics@cce.edu.in

GOVERNING BODY MEMBERS

Role	Name	Designation
Chairman	Fr. Dr. Jose Nandikkara CMI	Provincial, Devamatha Province, Thrissur
Secretary	Dr. Soloman P A	Principal, Christ College of Engineering (Autonomous), Irinjalakuda.
Managing Trustee	Fr. John Paliakara CMI	Executive Director, Christ College of Engineering (Autonomous), Irinjalakuda.
Management Trust Nominee	Fr. Lijo Paul B CMI	Councilor for Education & Media, Devamatha Province, Thrissur
Management Trust Nominee	Fr. Dr. Milner Paul Vithayathil CMI	Joint Director, Christ College of Engineering (Autonomous), Irinjalakuda
Management Trust Nominee	Fr. Dr. Urumeese Mundanmani CMI	Finance Director, Christ College of Engineering (Autonomous), Irinjalakuda
KTU Nominee	Dr. Joe Francis	Associate Professor, Mechanical Engineering, College of Engineering, Cherthala
DTE Nominee	Dr. Rajesh Vanchipura	Professor, Mechanical Engineering, GEC, Thrissur.
Educationist	Dr. A. Unnikrishnan	Outstanding Scientist & Associate Director, Retd. from NPOL (DRDO)
Educationist	Dr. Vinod P.	Professor, Department of Computer Applications, CUSAT, Kerala.
Educationist	Dr. Manikandan Rajagopal	Associate Professor, School of Business and Management, CHRIST (Deemed to be University), Bangalore

Industrialist	Mr. Paul Sebastian	Managing Director, Accenture, Bangalore.
Industrialist	Mr. Paul Francis	Managing Director, KLF Nirmal Industries Pvt Ltd., Irinjalakuda
Industrialist	Mr. Dinesh Thampi	Vice President, Tata Consultancy Services.
Industrialist	Ms. Sumitha Sudhakaran	DFT, Microarchitect, Intel Corporation, Folsom, California
Representative from College	Dr. Sijo M T	Director – Students Affairs, Christ College of Engineering (Autonomous), Irinjalakuda
Representative from College	Dr. V. D. John	Vice-Principal, Christ College of Engineering, (Autonomous), Irinjalakuda
Representative from College	Dr. Elizabeth Elias	Director, Research, Christ College of Engineering, (Autonomous), Irinjalakuda
Representative from College	Dr. Manoj George	Director Academics, Christ College of Engineering (Autonomous), Irinjalakuda
Representative from College	Dr. Sudha Balagopalan	Director, Outreach & Professional Development, Christ College of Engineering (Autonomous), Irinjalakuda
Representative from College	Mr. Sunil Paul	Director, Christ Centre for Innovation & Open Learning, Christ College of Engineering (Autonomous), Irinjalakuda
Representative from College	Dr. Krishnapriya M G	IQAC Coordinator, Christ College of Engineering (Autonomous), Irinjalakuda

PROGRAMS & DEPARTMENTS

UNDERGRADUATE PROGRAMS Seats

Civil Engineering	60
Computer Science and Engineering	240
Computer Science and Business Systems	60
Computer Science and Engineering (Data Science)	60
Electronics and Communication Engineering	60
Electronics Engineering (VLSI Design & Technology)	30
Electrical and Electronics Engineering	60
Mechanical Engineering	60

POST GRADUATE PROGRAMS

M.Tech. in Computer Science Engineering	12
M.Tech. in Structural Engineering & Construction Management	12
Master in Business Administration (MBA)	120
Master in Computer Applications (MCA)	60

DEPARTMENTS

Department of Civil Engineering
Department of Computer Science & Engineering
Department of Electronics & Communication Engineering
Department of Electrical & Electronics Engineering
Department of Mechanical Engineering
Department of Basic Science & Humanities
Department of Business Administration

OTHERS

Training & Placement Cell
Examination Cell
Central Library
Physical Education Department
IQAC (Internal Quality Assurance Cell)

IEDC (Innovation & Entrepreneurship Development Cell)

Anti-Ragging Cell

Women Cell

Grievance Redressal Cell

ACADEMIC STRENGTHS AND UNIQUENESS OF CCE

- Outcome-Based Education (OBE) system
- Mentoring System
- Comprehensive LMS (Learning Management System), in compliance with NBA standards
- Modern Blended Learning with emphasis on PBL (Project-Based Learning) and flipped learning concepts
- Academic Calendar, Course Plan, Teacher Handbook to ensure compliance with the course plan
- Periodic External & Internal Academic Audit
- Documentation compliance with NBA standards
- Periodic calculation and documentation of outcome attainments
- Add-on courses, Tutorial sessions, Skill development programs
- Student Enrichment Programs (SEP)
- Industry-oriented training sessions
- Feedback mechanisms from all stakeholders.
- Assessment & Evaluation for Continuous Improvement
- Result analysis of Internal tests and University Exam Results
- Students' academic support system—for bright learners and slow learners
- Induction programs and Remedial classes
- Regular Career Development Programs
- Placement & Training programs
- GATE Coaching
- Innovation and Entrepreneurship Development Cell Activities
- Language Lab & Spoken English classes
- Peer learning Activity
- Digital Library
- NSS Units, Technical Associations and General Club activities
- Professional Counselors
- Scholarship for Meritorious and economically backward students.

- Yearly Endowments for students' excellence.
- Regular Faculty Development Programs
- Make in CCE Initiatives

DEPARTMENTS AT A GLANCE

DEPARTMENT OF CIVIL ENGINEERING

VISION

To be a recognized centre for moulding technically competent and socially committed Civil Engineering professionals through quality education and practical training.

MISSION

1. To impart quality education in Civil Engineering by integrating theory and practice, keeping pace with emerging technologies.
2. To encourage students to take up innovative research projects that can benefit the society.
3. To mould competent professionals upholding sustainable practices, ethical values, leadership qualities and lifelong learning capabilities.

Programme Specific Outcomes (PSOs)

Graduates will be able to:

1. Apply expertise in structural, geotechnical, transportation, water resource, construction management and environmental engineering to develop sustainable solutions in the Civil Engineering domain.
2. Design civil engineering systems integrating quality, safety, ethical standards and societal requirements.
3. Use conventional and modern tools in the field of Civil Engineering to address the requirements of industry and higher education.

Programme Educational Objectives (PEOs)

Graduates will be able to:

1. Apply engineering knowledge and modern technologies in various domains of Civil Engineering to execute projects.
2. Develop an attitude for higher studies, research, and innovation to foster adaptability for global professional requirements.
3. Comprehend societal needs for sustainable development and attain optimal solutions ethically through teamwork and lifelong learning.

DEPARTMENT INFRASTRUCTURE

10	Project Lab

DEPARTMENT LIBRARY

The department library was established in 2021. Currently, the library has 286 books, over 320 seminar reports, 82 project reports, and 14 design project reports.

TECHNICAL ASSOCIATION - RACE

The Receptive Association of Civil Engineers (RACE) is the students' association of the Civil Engineering Department at Christ College of Engineering. It was established in the year 2016.

RACE provides an opportunity for civil engineering students to build academic, social, and professional relationships through a wide range of activities, including monthly meetings, expert talks, site visits, technical competitions, social events, and community volunteering. The association helps expand and strengthen students' spirit and dedication.

DEPARTMENT ADVISORY BOARD

SI No	Name	Designation
1	Dr. Sherjah P Yusuf Ali	Associate Professor & Head, Department of Civil Engineering, Christ College of Engineering (Autonomous), Irinjalakuda
2	Dr. Jai M Paul	Retd. Professor, Mar Athanasius College of Engineering
3	Dr. Miji Cherian	Associate Professor, GEC Thrissur
4	Dr. Vasudevan. N	Junior Scientist, KSCSTE- National Transportation Planning and Research Centre, Ernakulam
5	Mr. Freddy Soman	General Manager, Matterlab, Calicut (ULCCS)
6	Mr. Shiju Sasidharan	CEO, BIMLABS
7	Mr. Arjun Chandran	Assistant Engineer, Pollution Control Board
8	Mr. Manoj	Parent representative
9	Mr. Prabha Sankar V P	Assistant Professor, Department of Civil Engineering, Christ College of Engineering (Autonomous), Irinjalakuda.
10	Dr. Jino John	Professor, Department of Civil Engineering, Christ College of Engineering (Autonomous), Irinjalakuda.

DEPARTMENT OF COMPUTER SCIENCE ENGINEERING

VISION

Creating socially committed engineers with professional competency and excellence in Computer Science and Engineering through quality education.

MISSION

- To achieve technical proficiency by adopting effective teaching-learning strategies which promote innovation and professional expertise.
- To facilitate skill development of students through additional training by collaborating with industry to broaden their knowledge.
- To promote excellence in research, development and consultancy services rooted in ethics, to emerge as responsible engineers.

PROGRAM EDUCATIONAL OBJECTIVES

CSE Graduates, within three to five years of graduation, should

- Demonstrate their expertise in solving contemporary problems through design, analysis and implementation of hardware and software systems.
- Adapt to a constantly changing world through professional development and continuous learning.
- Develop teamwork, leadership and entrepreneurship skills required to function productively in their profession.

PROGRAM SPECIFIC OUTCOMES

- Analyze and design computation systems by applying the attained knowledge in programming language and algorithms, system software, database management, data communication, networking and allied areas of Computer Science and Engineering.
- Apply software engineering principles and practices to develop efficient software solutions for real-world computing problems.

- Exclusive Systems for each student.
- Internet connectivity in each lab with 100 Mbps speed.
- Each system is protected with antivirus software.
- Entry of the lab by students is recorded in the Login register.
- Uninterrupted power supply.

DEPARTMENT LIBRARY

In addition to the Central Library, a departmental library is functioning in the department,

catering to the needs of the faculty and students. All CSE department faculty and students are eligible to use the library. The department library contains a collection of books, seminar reports, and project reports. Project and Seminar reports of previous semesters are available for reference. Current students can refer to those reports for doing projects and documentation.

TECHNICAL ASSOCIATION – CODE

The Community of Developers (CODE) is the students' association of the Department of Computer Science and Engineering, Christ College of Engineering (Autonomous). It was established in the year 2016. This association provides a space for students to develop their leadership, management, and technical skills. The technical events consist of Hackathons, Coding competitions, add-on courses, etc. CODE also conducts South India's only Beach Hackathon - Beach Hack. The Alumni continue to contribute to this forum by guiding their juniors on academics, placement, and career. Overall, CODE tightens the bond between CSE students, Alumni & Faculty.

DEPARTMENT ADVISORY BOARD (DAB)

This Board ensures the effective functioning of the Department. A mandatory meeting is held before the onset of every academic year to discuss the setbacks of previous semesters and to ensure adequate progress in the coming semesters. The DAB consists of industrialists, an academician, an alumnus, a PTA member, and senior faculty members of the department.

The following are the members of the Committee:

SI No	Name	Designation
1	Dr. Sreetha E S	Associate Professor and Head, Department of Computer Science and Engineering, Christ College of Engineering (Autonomous), Irinjalakuda.
2	Dr. Ajay James	Asst. Professor, GEC, Thrissur
3	Sankaranarayanan P. N.	Asst. Professor, GEC, Thrissur
4	Mr. Vinod Rajan	Value Catalyst/Global Program Manager, UST
5	Tito Jose Moothedan	Delivery Manager, Infosys Technologies
6	Mr. Thomas Siby	Associate SDET, SOTI, Cochin.

7	Mr. Lazar Tony	IIT, Kanpur
8	Dr. Nitha C Velayudhan	Associate Professor, CSE Department, Christ College of Engineering (Autonomous), Irinjalakuda.
9	Ms. Jasmine Jolly	Assistant Professor, CSE Department, Christ College of Engineering (Autonomous), Irinjalakuda.
10	Ms. Iris Jose	Assistant Professor, CSE Department, Christ College of Engineering (Autonomous), Irinjalakuda.
11	Ms. Neethu P R	Assistant Professor, CSE Department, Christ College of Engineering (Autonomous), Irinjalakuda.
12	Ms. Rinsu Aravind	Assistant Professor, CSE Department, Christ College of Engineering (Autonomous), Irinjalakuda.

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

VISION

To be a premier center of education, research, and innovation in Electronics and Communication Engineering that nurtures adept engineers responsive to global challenges and societal needs.

MISSION

- To enhance the teaching-learning process by implementing state-of-the-art practices suitable for a challenging technological world.
- To promote innovative research in emerging areas for the advancement of knowledge towards developing sustainable solutions for society.
- To foster ethics, values, and an urge for continuous improvement vital for professionals to emerge as responsible leaders.

PROGRAM EDUCATIONAL OBJECTIVES

- Acquire state-of-the-art knowledge in the discipline of Electronics & Communication Engineering to be able to design and develop innovative and cost-effective products to fulfill multidisciplinary challenges.
- Apply skills and knowledge to pursue a growth-oriented career with global competitiveness
- Exhibit professional integrity, work ethics, and commitment towards the principles of sustainability while exercising the role of a responsible engineer.

PROGRAM SPECIFIC OUTCOMES

- Apply in-depth knowledge in Signal Processing, Microelectronics and VLSI, Embedded Systems and Communication Systems to analyze, design, and implement energy-efficient and environmentally sustainable solutions for real-world engineering problems.
- Demonstrate professional competence by applying engineering principles and modern tools to succeed in industry, entrepreneurship, and higher education in

Electronics and Communication Engineering and allied domains.

- Foster innovative research in emerging domains such as Artificial Intelligence, Health Care, and Nanoelectronics, leading to technological advancements beneficial for society by upholding ethical standards.

DEPARTMENT INFRASTRUCTURE

SL. No	Facility	Seating Capacity	Room No
1	Classrooms	63	211, 212, 411 St. Mary's block 118, 211 St. Chavara Block
2	Tutorial Room	30+30	407 St. Chavara Block
3	Seminar Hall	1	406 St. Chavara Block
4	Faculty Cabin	12	216 St. Mary's Block
5	HoD Room	1	216 St. Mary's Block

LABORATORIES

SI NO	Lab Names
1	Circuits Lab
2	Digital Electronics Lab
3	Microprocessor and Microcontroller Lab
4	Communication Engineering Lab
5	Signal Processing and Computation Lab
6	Project Lab

Digital Electronics Lab, Circuits Lab, Microprocessor & Microcontroller Lab, Communication Engineering Lab, Signal Processing and Computation Lab, and Project Lab are equipped with modern equipment, instruments, and state-of-the-art infrastructure that enable students to gain knowledge through practice.

DEPARTMENT LIBRARY

The Department Library contains a collection of books, journals, and reports related to the subject area of the Department. It consists of books from various fields and Seminars and

Project reports completed by students of previous batches. These reports could serve as examples and inspiration for current students working on similar projects. They could also help students to understand the kinds of research and writing expected in the Department. It provides access to materials that are relevant to the subject area and supports research and learning in the Department.

TECHNICAL ASSOCIATION- ECTA

The Electronics and Communication Technocrats Association (ECTA) is the students' association of the Department of Electronics and Communication Engineering, Christ College of Engineering. It was established in the year 2016. The name ECTA refers to a symbolic representation of unity (Ekatha) among students, teachers, and Alumni.

The objectives of ECTA are

- To encourage and promote technical and professional development among students.
- To provide a platform for students to showcase their skills and knowledge.
- To organize technical events, workshops, and competitions.
- To facilitate industry-academia interaction.
- To promote collaboration and knowledge sharing among students.
- To provide opportunities for students to network with industry professionals.
- To create awareness about the latest trends and developments in the field of Electronics and Communication Engineering.

DEPARTMENT ADVISORY BOARD

Department Advisory Board is the highest body for planning, evaluation, and quality assurance in the department. DAB is constituted with eminent industry and academic experts, alumni, and parent representatives, and senior faculty members of the department as members. DAB meeting is held before the onset of every academic year to review the activities of the Department for the last year, evaluate PO/PSO attainment, and approve the Department plan for the coming year, focusing on continuous improvement. The following are the current members of the Board.

SI No	Name	Designation	Role
1	Dr. Krishnakumar S	HoD, ECE, Christ College of Engineering (Autonomous)	Chairperson

2	Dr. Deepa Sankar	Professor, Division of Electronics Engg, School of Engineering, CUSAT	Academic Expert- External
3	Dr. Suja K J	Assistant Professor, ECE Department, NIT Calicut	Academic Expert- External
4	Ms. Deepthy C K	Scientist G, IISU, ISRO, Thiruvananthapuram	Industry Expert- External
5	Mr. Mahesh K	Sub Divisional Engineer, BSNL	Industry Expert- External
6	Dr. Krishnapriya S	Assoc. Professor, ECE Department, Christ College of Engineering	Professor
7	Ms. Manju I Kollannur	Assistant Professor, ECE Department, Christ College of Engineering (Autonomous)	Secretary
8	Ms. Mary Christina Joy	Application Engineer, Synopsis, Hyderabad	Alumni Representative
9	Mr. John Gratious	Business	Parent Representative

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

VISION

To excel in fostering competent Electrical and Electronics Engineering professionals with sound knowledge and practical skills for social upliftment.

MISSION

- To impart the excitement of modern technology and problem-solving skill among students through the development of an inspiring teaching-learning environment.
- To mould the young minds to provide cost-effective, innovative and sustainable solutions, for the challenges faced by the society, through fundamental research and training.
- To develop ethical values, leadership skills and lifelong learning practices that leads the students to become responsible citizens.

PROGRAM EDUCATIONAL OBJECTIVES

- Demonstrate expertise as skilled professionals in Electrical and Electronics Engineering with strong foundation in Mathematics, Basic Science and Management.
- Excel in engineering profession or pursue higher studies.
- Contribute effectively in the field of Electrical and Electronics Engineering with excellent oral and written communication skills, ethical and human values, life-long learning capabilities and professionalism for the benefit of industry and society.

PROGRAM SPECIFIC OUTCOMES

- Apply the fundamental knowledge of Mathematics, Science, Electrical and Electronics Engineering to identify and analyze real-life problems in Electrical, Electronics and allied interdisciplinary areas to provide sustainable solutions.
- Provide techno-economic solutions to implement systems such as smart power system and e-mobility.
- Attain competence in developing, testing and implementing electrical and/or electronic systems by the effective use of relevant scientific and technological solutions.

DEPARTMENT INFRASTRUCTURE

SL. No	Facility	Seating Capacity	No

8	Advanced Power System Lab (in collaboration with ENSPAR Energy Solutions Bengaluru)

DEPARTMENT LIBRARY

Sl. No.	Items	Count
1	Number of Books	219
2	Number of Seminar Reports	162
3	Number of Project Reports	60

The department library is always accessible for the students in such a way as to cater

to their needs while maintaining proper discipline at the same time.

TECHNICAL ASSOCIATION- BETA

The association of Electrical and Electronics Engineering department of Christ College of Engineering is BETA (**B**attalion of **E**lectrical **T**echno **A**rtificers). BETA officially began functioning on 12th March 2017. All the Electrical and Electronics Engineering students of Christ College of Engineering are the members. BETA has an executive committee, selected from the members, along with a faculty advisor to organize the activities. and BETA is to excel in fostering competent Electrical and Electronics Engineering professionals with sound knowledge and practical skills for the social upliftment, impart the excitement of modern technology and problem solving in students through the development of an inspiring teaching-learning environment with qualified faculty and excellent infrastructure. BETA organize various technical and non-technical events in every year. Project expo's, technical talks, hands-on training workshops, quizzes, industrial visits, etc. are the major technical events. Along with this, BETA organize non-technical events like BETA CUP (Football tournament), picnics, cultural events, etc. Department organize 'Electricals Day' in every year in support with BETA.

Aims and Objectives

- To further the knowledge and awareness in the field of Electrical and Electronics Engineering through conferences, workshops, seminars and awareness programs.
- Inviting Guest lecturers of industrialists, academicians, management personalities to motivate and guide our members.
- To develop leadership and initiative, and to inculcate a sense of responsibility amongst the members of the Association
- To create a forum for the exchange of ideas between students and staff of the department and other departments in the College and provide a conducive atmosphere for social contact between the aforementioned.

DEPARTMENT ADVISORY BOARD

The Department Advisory Board (DAB) ensures the effective functioning of the department. A mandatory meeting is held before the onset of every semester to discuss the

setbacks of previous semesters and to ensure acute progress in the coming semesters.

The following are the members of the DAB.

SI No	Name	Designation
1	Dr. Meenakshy K (Chairperson)	Professor & HoD, Department of Electrical and Electronics Engineering, Christ College of Engineering (Autonomous), Irinjalakuda
2	Dr. Vishnu P Madanmohan (Secretary)	Associate Professor, Department of Electrical and Electronics Engineering, Christ College of Engineering (Autonomous), Irinjalakuda (Department IQAC Coordinator)
3	Dr. M. Nanadakumar (Member – Department)	Professor, Department of Electrical and Electronics Engineering, Christ College of Engineering (Autonomous), Irinjalakuda
4	Dr. Sudha Balagopal (Member – Department)	Professor & Director, Outreach, Department of Electrical and Electronics Engineering, Christ College of Engineering (Autonomous)
5	Dr. Ravishankar A.N (Member – Department)	Professor, Department of Electrical and Electronics Engineering, Christ College of Engineering (Autonomous), Irinjalakuda
6	Ms. Emilin Thomas Kangappadan (Member – Department)	Assistant Professor, Department of Electrical and Electronics Engineering, Christ College of Engineering (Autonomous), Irinjalakuda
5	Dr. Kanakasabapathy P (Member-Academic)	Professor, Department of Electrical and Electronics Engineering, Amrita University, Kollam, Kerala
6	Dr. Suresh K. Damodaran (Member-Academic)	Associate Professor, Department of Electrical Engineering, GEC Thrissur
7	Dr. Jeevanand S. (Member-Higher Studies & Research)	Assistant Professor, Department of Electrical Engineering, IIT Roorkee
8	Dr. Vinu Thomas (Member-Foreign Interactions)	Associate Professor, Automatic Control and Robotics Department, Centrale Nantes, Nantes, France
9	Dr. Sreekanth Madhavan (Member – Entrepreneur)	CEO, KabaniTech Maker-Space, Shornur, Kerala
10	Dr. Krishnakumar M (Member – Core Industry)	Asst. Engineer, KSEB Ltd., Kerala
11	Dr. Haritha G. (Member – Core Industry)	Technical Specialist - EHV, Bosch Global Software Solutions, Coimbatore
12	Ms. Mini P R (Member – Industry Support)	Industry Extension Officer, District Industries Centre, Thrissur
13	Mr. Nikhil Samuel (Member - IT Industry)	Senior Analyst, Infosys Limited, Electronics City, Mysore
14	Mr. Seby George	Software Quality Assurance Engineer,

	(Member – Alumni)	Mitsogo Technologies Pvt. Ltd, Kochi
15	Ms. Elsa Sojan (Member – Alumni)	Pursuing M. Tech at GEC, Thrissur

DEPARTMENT OF MECHANICAL ENGINEERING

VISION

To become a nationally recognized knowledge hub in Mechanical Engineering by moulding professionally competent and socially responsible engineers.

MISSION

- To create a conducive learning platform for students to excel as professionals, through quality technical education and training.
- To involve students in socially committed projects and programs to broaden their knowledge and integrity.
- To mould students with good leadership qualities, ethical values, and life-long learning.

PROGRAM EDUCATIONAL OBJECTIVES

- Apply technical knowledge and skills to find feasible solutions in Mechanical Engineering domains and allied industries.
- Evolve as responsible professionals capable of solving socially relevant problems and pursue higher education and research.
- Exhibit professionalism, team work, and ethical attitude through continued learning to accomplish organisational goals.

PROGRAM SPECIFIC OUTCOMES

- Apply the knowledge of thermal sciences, mechanical design, and manufacturing principles for analysing and evaluating problems in the domain of Mechanical Engineering.
- Apply the knowledge gained through multidisciplinary learning, to solve real life problems.
- Effectively use modern technology tools such as CFD, CAD/CAM and 3-D printing in Mechanical Engineering practice.

DEPARTMENT INFRASTRUCTURE

SL. No	Facility	Seating Capacity	No

9	Mechanical Engineering Lab

DEPARTMENT LIBRARY

The department library was set up in 2018 with a few books contributed by students and faculty. Now there are 219 titles of books. There is also a good collection of the reference books prescribed in the syllabi of UG courses.

TECHNICAL ASSOCIATION- RPM

Real Persistent Mechanics (RPM) is the technical association of the Department of Mechanical Engineering, CCE. RPM is formed by, for, and of the students, jointly headed by faculty and student members. This plays an excellent role in centrally organizing and managing co-curricular and extra-curricular activities of the department. RPM acts as a platform between academia and industry by organizing seminars, workshops, technical events, and other co-curricular programs. It also provides a common arena for interaction and knowledge sharing

between faculty and the students, between the seniors and the juniors of the department.

Aims and Objectives

- To further the knowledge and awareness in the field of Mechanical Engineering through conferences, workshops, seminars, and awareness programs.
- Inviting Guest lecturers, industrialists, academicians, management personalities to motivate and guide our members.
- To develop leadership and initiative, and to inculcate a sense of responsibility amongst the members of the Association
- To create a forum for the exchange of ideas between students and staff of the department and other departments in the school and provide a conducive atmosphere for social contact between the aforementioned.

DEPARTMENT ADVISORY BOARD

This Board ensures the effective functioning of the Department. A mandatory meeting is held before the onset of every semester to discuss the setbacks of previous semesters and to ensure adequate progress in the coming semesters.

The following are the members of the Committee.

SI No	Name	Designation
1	Dr. Viswanath K. Kaimal	Professor and HOD, Department of Mechanical Engineering, CCE, IJK
2	Dr. Manoj Kumar P	Associate Professor, PSG Tech Coimbatore
3	Dr. Abdul Samad	Professor, GEC Palakkad, Sreekrishnapuram
4	Mr. James Poonnolly	Head of IT & MIS, Anthea Aromatic, Mumbai
5	Dr. Alos James	Associate Professor, Dept. of Mechanical Engineering, CCE, IJK
6	Dr. Arun Augustin	Associate Professor, Dept. of Mechanical Engineering, CCE, IJK
7	Mr. Joseph Jojo	Engineer at Mahindra Alumni (2015-2019 Batch)

DEPARTMENT OF BASIC SCIENCE & HUMANITIES

The Basic Sciences & Humanities (BSH) Department at Christ College of Engineering (Autonomous) provides the foundational academic training required for all engineering disciplines. Established in 2015, comprises the disciplines of Mathematics, Physics, Chemistry, Economics, and English.

VISION

To become a unique department of excellence that augments other departments of technology in fulfilling their objectives.

MISSION

- To provide high-quality, equitable foundation courses in Mathematics, Physics, Chemistry, Economics, and English.
- To impart fundamental science education that augments the assimilation of technical knowledge in various disciplines of engineering.
- To develop an insight into the choice behavior of individuals, organizations and Government bodies.
- To create basic skills in communication as a tool in conversing with the stakeholders of any organization.

DEPARTMENT INFRASTRUCTURE

5	HOD Room	1	CH102

LABORATORIES

Sl No.	Lab Names
1	Engineering Chemistry
2	Engineering Physics
3	Language Lab

ENGINEERING PHYSICS LAB

The Engineering Physics Laboratory is a premier, fully equipped facility featuring advanced diagnostic and optical instrumentation. It includes a dedicated spectroscopy dark room optimized for high-precision wave-optics experiments free from ambient light interference.

Through structured hands-on modules, students master precision micro-measurements using travelling microscopes and analyze electrical signals via Cathode Ray Oscilloscopes (CRO) using Lissajous figures.

The advanced curriculum empowers students to map the wavelengths of monochromatic sodium and polychromatic mercury vapour lamps, evaluate the resolving power of optical gratings, and explore photonics by measuring the numerical aperture of fiber optic cables. Furthermore, students gain early exposure to green energy paradigms by calculating the efficiency and fill factor of photovoltaic solar cells, alongside acoustic analysis utilizing Melde's string apparatus.

ENGINEERING CHEMISTRY LAB

Engineering Chemistry Laboratory at Christ College of Engineering is a state-of-the-art laboratory with a wide range of equipment to cater to the needs of the students. It enables the students to have hands-on training on various topics they study in the "Engineering Chemistry" theory course. The lab is designed spaciouly and well-ventilated to accommodate a capacity of 30 students at a time. The laboratory's design includes ceramic tiles on all working tables, a separate balance room, and a chemical store room. The lab is equipped with a UV spectrometer, pH meter, potentiometer, and Conductivity meter.

DEPARTMENT LIBRARY

The department library is a gateway to knowledge that provides information, resources, and services that impart opportunities for research, teaching, and learning. The Central Library follows the Dewey Decimal Classification System and has a seating capacity of 290 spread over 482.77 Sqm. The department library occupies a unique place in the academic and research activities of the department. Students and staff are advised to fully utilize books for further enhancement of their subject knowledge. The library has got a collection of nearly 50 books from Science and Humanities.

DEPARTMENT OF BUSINESS ADMINISTRATION (MBA)

ABOUT THE DEPARTMENT

The Department of Business Administration is the MBA wing of Christ College of Engineering (Autonomous), Irinjalakuda. The department provides a transformative learning experience through smart classrooms, real-world case studies, industry projects, internships, add-on certifications, expert talks, industrial visits, and international immersion programmes, preparing students to become ethical and innovative leaders in a dynamic business world. The department offers specializations in Marketing, Finance, Human Resource, Operations and Systems, with the option of a dual specialization.

VISION

To empower future leaders with high-tech education fostering excellence, innovation, integrity, and compassion in business practices.

MISSION

- To cultivate principled leaders equipped with futuristic knowledge and skills.
- To drive positive change in the global business landscape, guided by ethical values.
- To create a quality education system that encourages faculty and students to involve in innovative, meaningful and committed service for the benefit of society.

PROGRAM OUTCOMES

- Apply knowledge of management theories and practices to solve business problems.
- Foster analytical and critical thinking abilities for data-based decision making.
- Ability to develop value-based leadership ability.
- Ability to understand, analyze, and communicate global, economic, legal, and ethical aspects of business.
- Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.

DEPARTMENT ASSOCIATION – DECA

The association of the Department of Business Administration (MBA) of Christ College of Engineering (Autonomous) is DECA (Developing Entrepreneurs, Corporate Aspirants and Administrators). All the MBA students of Christ Institute of Business Administration are members. DECA has an executive committee, selected from the members, along with a faculty advisor to organize the activities.

As its name suggests, DECA is built around the three career paths the department prepares its students for – entrepreneurs who create new ventures, corporate aspirants who build careers in industry, and administrators who lead institutions and organizations with wisdom, empathy, and integrity. In line with the department's vision, DECA provides a platform for students to develop leadership, teamwork, communication, and managerial skills beyond the classroom.

DECA organizes various academic and non-academic events every year. Management games, business plan and case study competitions, expert talks, workshops, quizzes, business simulations, industrial visits, and outbound training programmes are the major academic events. Along with this, DECA organizes cultural programmes, sports events, celebrations, and social outreach activities. The department organizes LUCIDUS, its National Level Management Fest, every year with the support of DECA.

LUCIDUS – NATIONAL LEVEL MANAGEMENT FEST

LUCIDUS is the flagship National Level Management Fest of the Department of Business Administration, conducted annually as a platform for experiential learning and industry interaction. The inaugural edition, LUCIDUS '26, held on 23rd January 2026, witnessed 458 participants and over 100 team registrations, including participants from Bangalore and Chennai. The fest features events such as Best Manager, Marketing, Finance, HR and Operations games, business simulations like IPL Auction, and cultural and sports activities that sharpen strategic thinking, leadership, teamwork and decision-making skills.

PROFESSIONAL BODY MEMBERSHIPS

- Confederation of Indian Industry (CII)
- Trivandrum Management Association (TMA)
- Indian Society for Training and Development (ISTD)

DEPARTMENT ADVISORY BOARD

The Department Advisory Board (DAB) ensures the effective functioning of the department. A mandatory meeting is held before the onset of every semester to discuss the setbacks of previous semesters and to ensure adequate progress in the coming semesters.

The following are the members of the DAB.

Sl No	Name	Designation
1	Dr. Gopesh C R (Chairman)	Professor & HoD, Department of Business Administration, Christ College of Engineering (Autonomous), Irinjalakuda
2	Mr. Jerry Johny (Secretary)	Assistant Professor, Department of Business Administration, Christ College of Engineering, Irinjalakuda
3	Dr. Sneha John P (Member – Department)	Assistant Professor, Department of Business Administration, Christ College of Engineering, Irinjalakuda
4	Mr. Dinesh P Thampi (Member – Industry)	Vice President & Delivery Centre Head, Tata Consultancy Services

5	Mr. Indrajit Thakurata (Member – Academic)	Faculty Member in Economics, Indian Institute of Management Indore
6	Dr. Shawn Mathew (Member – Foreign Interactions)	Senior Lecturer, Middlesex University Dubai
7	Dr. Benny Joseph Neelankavil (Member – Industry)	Chief Executive Officer, Jubilee Mission Hospital & Medical College, Thrissur
8	Dr. Sam Thomas (Member – Academic)	Dean, Faculty of Social Sciences, School of Management Studies, CUSAT
9	Academic Expert (Internal)	Principal Officer and Director of Wealth DNA Finvest Pvt Ltd, Bangalore and Vice President of Academics at Hedge School Of Applied Economics, Kochi

SPECIAL CENTERS OF CCE

CENTRAL LIBRARY

Christ College of Engineering Central Library is marvelous, with excellent amenities and facilities, and functions as the pivotal Learning Resource Hub of the institution. The Central Library stocks and distributes not only traditional educational resources such as books, journals, general reading, publications, software, and audio/visual materials, but also state-of-the-art electronic information resources, electronic journals, etc. The Central Library follows the Open Access System and has a seating capacity of 290 spread over 482.77 Sqm. In addition to the central library, each department also has a separate department library.

E-Resources: Include

- Quality e-journals and e-books are available in the institution, which include:
 - DELNET Institutional Membership (Database, E-Books)
 - EBSCO- IEEE ASPP ONLINE TIER 3 -205 IEEE journals
 - Elsevier ScienceDirect Journals Through Knimbus Platform
 - Institution of Engineers India (IEI) institutional Membership
 - National Digital Library of India (NDLI) Institutional Membership
 - NPTEL
- The software subscribed:
 - Claude AI
 - ChatGPT Plus
 - Quill Bot
 - Jenni AI
 - Turnitin Plagiarism Software
- IRINS (Indian Research & Networking System) Librarian as Nodal Officer

Journals, Newspapers & Magazines:

- Library subscribes to a good collection of Print Journals (national & International) in every engineering discipline, management, Economics, Basic science, and allied subjects
- Library has several newspapers & magazines to enhance personal development and General knowledge.

LIBRARY REGULATIONS

- 1) Personal belongings are not allowed beyond the issue counter. They shall be kept at the

property counter.

2) Students shall maintain unbroken silence in the library. It is not a place for discussions, chatting, sleeping, etc.

3) Students are liable to pay compensation if they misbehave or damage books or any other property of the library.

4) Circulation Policies:

- Producing a college ID card with a barcode is necessary for issuing a document from the library.
- The institution has implemented Koha, an open-source Integrated Library Management System, to automate library operations, including cataloguing, circulation, acquisitions, and serial control.
- The system provides OPAC-based access to library resources, enabling students and faculty to search, reserve, and monitor the availability of learning materials. The library operates at convenient hours, and the OPAC enables students to easily search and locate books and digital resources. Apart from the Textbooks and Reference Books,
- The Central Library has a wide collection of print journals, magazines, and newspaper materials, and competitive examination books for GATE, ESE, etc

5) The library will not be responsible for the loss of students' belongings from the property counter.

6) **No- Dues certificate:** All library dues should be cleared, and a No-Dues Certificate (NDC) from the library should be obtained after the final exam.

7) Digital library

Students have to strictly follow the following guidelines:

- Use the internet only for academic purposes and correspondence.
- Playing music and games, watching movies, etc. will not be allowed.
- Maintain strict silence. Digital Library is not a place for discussion.
- The System will be provided based on availability (First come, first served) (One system per student).
- If there is a queue of waiting students, then internet usage is limited to 30 minutes.
- Do not manipulate system settings and experiment with TRS programs or viruses.
- Students are liable to pay compensation for any damage caused while using the system.

EXAMINATION CELL

The Examination Cell of Christ College of Engineering (Autonomous) has assumed an elevated, statutory role in shaping the institution's academic destiny. As an autonomous entity affiliated with APJ Abdul Kalam Technological University, the college now exercises independent authority over its curriculum development, continuous internal assessments, and end-semester examinations. The Examination Cell serves as the central engine for this newly acquired academic freedom, tasked with designing rigorous evaluation systems, upholding absolute confidentiality, and ensuring that degrees reflect the highest standards of industry alignment and engineering excellence.

The primary objective of the Examination Cell is to ensure continuous and comprehensive evaluation of students through Continuous Assessment and Evaluation (CAE) and End Semester Examinations (ESE). It manages the complete cycle of examinations — preparation of schedules, question paper setting, printing, invigilation, digital valuation, tabulation, and publication of results. To execute these expanded responsibilities with utmost integrity and operational efficiency, the cell functions under a strictly defined governance framework. The hierarchical structure of the Examination Cell establishes clear lines of accountability, divided as follows:

- **Chief Controller of Examinations:** Led by the Principal, provides apex oversight, ensures statutory compliance with university and UGC guidelines, and grants final approvals for results.
- **Controller of Examinations (CoE):** The core administrative head who directly drives the strategic planning, scheduling, question paper setting, and overall supervision of the autonomous evaluation processes.
- **Deputy Controllers of Examination Cell:** Senior and experienced faculty members who manage large-scale logistics, coordinate inter-departmental assessment data, and oversee central evaluation camps.
- **Assistant Controllers of Examination:** Key personnel who manage ground-level execution, including exam hall logistics, invigilation rosters, and secure processing of continuous evaluation marks.
- **Office Staff of Examination Cell:** The dedicated team of technical programmers, data entry operators, accountants, and administrative assistants handling digital records, grade card generation, and student queries.

The office of the Controller of Examinations is equipped with secure storage, confidential printing and scanning units, CCTV surveillance, and computers with restricted access. Operating out of a highly secure, technologically integrated facility, the cell leverages advanced enterprise resource planning (ERP) software to run a fully automated system to maintain data security and operational efficiency. From secure digital question bank management to automated seating allocations and rapid publication of results, this infrastructure eliminates manual discrepancies and maintains absolute data integrity. Furthermore, under the autonomous framework, the cell acts as a vital student support hub, swiftly managing transparent revaluation protocols, addressing academic grievances, and issuing grade cards and provisional certificates. By marrying structural accountability with autonomous flexibility, the Examination Cell ensures that the academic prestige of Christ College of Engineering (Autonomous) remains exemplary.

TRAINING AND PLACEMENT CELL

The Training and Placement Cell at Christ College of Engineering is dedicated to supporting the students in identifying suitable career opportunities and equipping them with the contemporary professional skills that will help them to excel in the competitive environment of modern industry. The placement cell exists as a bridge to connect students with industry and institutions for facilitating internships, job opportunities, and higher studies. Special focus is given to bridging the gap between Industry and academia by regularly organizing targeted seminars and workshops for sharing the recent trends in the industry and for developing leadership, communication, interview, and technical skills of students. Continuous training programs, coupled with the commitment of students, have helped the institution to achieve good placements.

Right guidance at the right time is the key for the students to achieve their career aspirations. Various sessions are arranged for the students, primarily intended to assist them in their career planning and provide information that helps them to give direction to their career aspirations and interests.

- Student Profile Card - The importance of a good career plan is inculcated among the students right from the day of admission. The students are made to fill a Profile card, once in semester-1 and once in semester-6, wherein their career expectations are recorded. This will, in turn, help the Placement Cell to assist students in getting placements in appropriate companies.
- What after B.Tech? - During the first-year orientation program, the department HoDs explain the various career opportunities available for the students in this college.
- Career Path - Counseling sessions are undertaken periodically by the placement cell to guide the students and to provide clarity about the road ahead.
- Cracking Competitive Exams - Sessions for sharing information related to qualifying exams for higher studies such as GATE, CAT, MAT/KMAT are arranged for students.
- Industry Connect - Industry Visits and Internships are organized from the first year onwards for the students to get a realistic awareness about the processes and practices in various industries.

Placement Training

The Training & Placement Cell strongly believes that the key to quality placements is in providing quality training to students. The requirements of the industry are identified through interaction with industry officials, campus recruitment feedback, employer feedback, and alumni feedback. Training activities are planned accordingly, which is a mix of offline and online training. Sessions to improve communication skills, remove stage fear, build teamwork, and improve leadership qualities are also included in the training programs. The major types of placement training provided to students are listed below.

- Aptitude Training
- Coding Training
- Young Professional Self Development Programme
- LinkedIn & Networking
- Group Discussion
- Mock Interviews

Some of the training programs are outsourced to expert faculty members, and a few trainings are carried out by the placement cell.

The Placement Cell provides all the necessary support to companies for the smooth conduct of the recruitment process, and required facilities are arranged for conducting written test/online tests, group discussions, technical and HR interviews. Special attention is given to the hospitality of the company officials, which is coordinated by placement student representatives.

Leading companies such as IBM, E&Y, TCS, Infosys, Wipro, Tata Elxsi, Amerigo Structural, Capgemini, Amazon, Pilotsmith, and many more organizations recruit our students. Our resourceful alumnae have set commendable standards in the corporate world through their admirable contributions. The consistent placement record illustrates our commitment and devotion towards creating employment opportunities for our students.

Placement Procedure:

The procedure for the recruitment process varies from company to company. The recruitment may be conducted either on-campus or off-campus, online or offline, pooled or campus, through general hiring or competitive hiring.

1. Invitation to Companies
2. Pre-placement Talk

3. Recruitment Drive

4. Job Offer

Invitation to Companies: It all begins with our placement invitation request to hiring companies to confirm their participation in the placement drive for the year. The industry is expected to share the job description for the positions they wish to recruit for and mention the position, salary, its responsibilities, and the recruiting criteria, which will invariably arouse the interest of students in the drive.

Pre-placement Talks: Hiring companies are always offered the opportunity to make pre-placement talks or presentations before the recruitment or during the recruitment, showcasing their corporate requirements and job profiles. Such events also provide students the opportunity to learn more about the company and meet some of the key employees. The schedule for pre-placement talks is worked out in coordination with the Training and Placement Officer.

Recruitment Drive: Companies are usually allotted a slot in the recruitment program schedule for conducting their final recruitment process. Companies may conduct all pre-final assessments such as group discussions, tests, and preliminary interviews before the day they are allotted. To make appropriate arrangements, companies are requested to provide information on their recruitment process. In particular, companies are requested to furnish information on the approximate size of groups for group discussion, the number of interview rounds and the approximate duration of each interview. The placement cell solicits this information two weeks before the commencement of the campus recruitment to the student group.

Job Offer: The job offers are either directly shared with our students or channeled through the Placement Cell depending upon the company. Accordingly, the students or the Cell informs the company of the acceptance of the offer by the concerned student. It is expected that when offers are made, companies will make a note of the specific terms and conditions as discussed and agreed upon during the interview, and these will be explicitly stated in the offer form initiated by the company.

Constitution of Training & Placement Cell

The organizational structure of the Training and Placement Cell consists of administrators, HoDs, faculty members, and student representatives from each of the departments. The Cell organizes various training programs at regular intervals for the students, starting from the first year onwards, to improve their ability in reasoning, analytical skills, aptitude, technical skills,

soft skills, communication skills, etc. The objective is to prepare the students for the competitive tests, group discussions, and interviews as part of the campus recruitment process. Professional trainers/training agencies are invited to give the training programs in the college.

Facilities to Recruiters

Apart from handling the needs of the students, the cell caters to the needs of the companies ranging from logistics to interview halls. The infrastructure available is suited to make the placement process a comfortable one.

- Seminar Hall or conference Hall for Pre-Placement Talks.
- Well-furnished, air-conditioned room for Group Discussions
- Online test Facility for up to 150 students in a single process.
- Interview rooms with all requisite facilities like Internet & fully computerized office Support.
- Dining room for Guests.

PHYSICAL EDUCATION DEPARTMENT

Students are encouraged to take part in a wide range of interdepartmental, zonal-level tournaments and university-level programmes. The college provides a variety of sports and games facilities, including cricket, football, basketball, volleyball, badminton, handball and athletics, along with indoor games such as table tennis, carrom and chess. In recent years, our students have achieved championship titles in several sports and games at zonal-level tournaments.

Interdepartmental sports and games are conducted every year, while the Annual Sports Day is organised during the odd semester of each academic year. The event is conducted on a house-wise basis, with students from all departments forming part of the respective houses. Students are also encouraged to participate in APJ Abdul Kalam Kerala Technological University (APJAKTU) sports and games under the following categories: (i) University Zonal Level and (ii) Inter-Zone Level Tournament. Attendance is granted to students participating in literary and sports events conducted within or outside the institute. The college has basketball and volleyball courts, along with indoor facilities for table tennis, chess and carrom. Certain facilities, including the cricket, football and athletics grounds, are shared with neighboring institutions functioning under the Christ Educational Trust. The sports facilities provided by the college are accessible to all students. P.T. Joy serves as the Director of Physical Education at Christ College of Engineering. Sports and games are available on campus every working day from 3:30 to 5:30 pm, providing students with regular opportunities to participate and practice.

Sports Infrastructure: The following sports facilities, developed and carefully maintained by Christ Educational Trust, reflect the importance given to sports and games as an integral part of the college curriculum.

SPORTS INFRASTRUCTURE

Sl. No	Infrastructure	Specification
1	Table Tennis Tables – 2 Nos.	Indoor facility at Christ College of Engineering
2	Volleyball Courts – 3 Nos.	Outdoor court • Total surface area: 28 × 15 Mtr • Playing area: 9 × 9 Mtr
3	Basketball Court – 1 No.	Cement-reinforced court with acrylic official transparent backboards

		• Surface area: 32×19 Mtr
		• Playing area: 28×15 Mtr
		• Backboards: 1.80×1.50 Mtr
4	Chess	Indoor chess room
5	Badminton Courts – 6 Nos.	One indoor cement-reinforced court (St. Joseph Block)
		Three indoor wooden courts (shared with Jyothis College for Advanced Studies)
		Two outdoor cement-tiled courts at Christ College of Engineering open auditorium
		• Playing area: 13.40×6.10 Mtr
6	Cricket Practice Nets – 2 Nos.	22 yards: One net cage with cement wicket (Christ College of Engineering)
7	Cricket Grounds – 2 Nos.	Shared with Christ Autonomous College and Vidyanikethan Public School; 22-yard wicket with 55 Mtr boundary
8	Football Ground	Clay-surface ground (110×75 Mtr), shared with Christ Autonomous College
9	Synthetic Track	400 Mtr, 6-lane track, shared with Christ Autonomous College
10	Football Turf – 1 No.	Football turf facility at Christ College of Engineering

NATIONAL SERVICE SCHEME

The institution encourages the students to be a part of the NATIONAL SERVICE SCHEME – an all-round development. The NSS expects students to grow as a good human being through social and community services. The NSS aims at improving the students’ personality through camps, seminars, invitations and special talks, and through social work where they can know more than what the eye sees.

The unit of NSS is a self-financing unit with a total of 100 volunteers – 50 from II year, 50 from III year, and two volunteer secretaries – a male and a female. The entire unit works as a team under the APJAKTU NSS Cell.

The volunteers are divided into groups/committees, and there is a leader for each group.

The main committees are:

Documentation – Swetha Mariya, 3rd EC

Activity – Alonzo Jappy K, 3rd Year CSA

Media – Alan Antony, 3rd Year EC

Treasurer – Jain Thomas, 3rd Year Mech

NRPF Coordinator – Brijit G Karaparambil, 3rd Year CSB

Nijin Sreeni -3rd Year EC

Energy Cell – Pius Jake -3rd EEE, Sukritha Krishna N U -3rd year EC

Rudhirasena – Liya K M- 3rd Civil, Albert Shony -3rd year EC

PACE – Delna Mary Anto-3rd year CSDS, Zeeco Johnson - 3rd Year Mech

NSS executive meetings are held at least thrice in a semester, where the activities for the semester are planned.

NSS ACTIVITIES, COMMUNITY ENGAGEMENT & VOLUNTEER DEVELOPMENT

NSS Activities and Community Engagement

The National Service Scheme (NSS) provides students with opportunities to actively participate in social, community, environmental, educational, and awareness-oriented activities. Through regular activities and special programmes, volunteers are encouraged to understand community needs, develop social responsibility, and contribute meaningfully to society.

The NSS unit organizes and participates in a wide range of activities, including:

- Community outreach and neighbourhood service activities
- Awareness campaigns on social and public issues
- Environmental protection and sustainability programmes
- Cleanliness and sanitation drives
- Tree planting and conservation initiatives
- Blood donation and health awareness programmes
- Medical and health-related camps
- Road safety and traffic awareness programmes
- Anti-drug and substance-abuse awareness campaigns
- Cyber safety and digital awareness programmes
- Literacy and educational support activities
- Activities for children and socially disadvantaged groups
- Visits to old-age homes, care centres and charitable institutions
- Disaster management and emergency preparedness activities
- Support activities during natural calamities and emergencies
- Energy conservation and water conservation programmes
- Plastic-free and waste-management initiatives
- Campaigns related to national and social observances
- Voter awareness and civic responsibility programmes
- Gender equality and social justice awareness
- Cultural and community-oriented programmes

- Seminars, workshops, talks and expert interactions
- Fundraising and charitable initiatives
- Rural and community development activities
- Special camps and residential service programmes
- Activities promoting Sustainable Development Goals (SDGs)

NSS Special Camps

Special camps are conducted to provide volunteers with practical exposure to community life and social service. Volunteers participate in activities such as community surveys, awareness programmes, cleanliness drives, environmental initiatives, educational support, cultural programmes, and interaction with local communities.

The camps also provide opportunities for students to develop leadership, teamwork, communication, coordination, problem-solving, empathy, and social responsibility.

Volunteer Development

NSS activities contribute to the holistic development of volunteers by providing opportunities to:

- Develop leadership and organizational skills
- Improve communication and interpersonal skills
- Work effectively as a team
- Understand community needs and social issues
- Develop empathy and civic responsibility
- Gain experience in planning and conducting programmes
- Develop event-management and coordination skills
- Strengthen problem-solving and decision-making abilities
- Promote environmental and social consciousness
- Become responsible and socially committed citizens

NSS Committees and Responsibilities

The committees function collectively to ensure the effective planning and execution of NSS programmes.

- Publicity Committee – Promotes NSS programmes through announcements, digital platforms and other communication channels.
- Poster Committee – Designs posters, notices, banners and awareness materials for various activities.

- Programme Committee – Coordinates programme planning, volunteer allocation, venue arrangements and execution.
- Documentation Committee – Maintains reports, photographs, attendance, participation details and activity records.
- Finance Committee – Supports financial planning, budgeting, expenditure recording and related documentation.

Planning and Documentation

NSS activities are planned through regular executive meetings and coordination among volunteers and programme coordinators. Each programme is documented systematically with details such as:

- Name and objective of the activity
- Date and venue
- Number of volunteers involved
- Beneficiary/community details
- Programme schedule
- Resource persons and collaborating organizations
- Photographs and activity evidence
- Major outcomes and observations
- Feedback and suggestions
- Follow-up activities, wherever applicable

Major Observances

The NSS unit actively participates in programmes associated with important national and international observances, such as:

- National Youth Day
- Republic Day
- World Environment Day
- International Yoga Day
- Independence Day
- National Sports Day
- Gandhi Jayanti
- National Unity Day

- Constitution Day
- Human Rights Day
- National Voters' Day
- World AIDS Day
- International Women's Day
- World Water Day
- Earth Day
- International Day against Drug Abuse and Illicit Trafficking

Expected Outcomes

Through continuous participation in NSS activities, volunteers are expected to develop a stronger sense of social responsibility, discipline, leadership, teamwork, empathy, environmental consciousness, and commitment to community welfare. NSS serves as a platform through which students can transform academic learning into meaningful community engagement and become responsible citizens.

“NOT ME BUT YOU”

From Campus to Community – Learning Through Service

INTERNAL QUALITY ASSURANCE CELL (IQAC)

To bring forth high-quality standards and to maintain a check on quality consciousness, the Internal Quality Assurance Cell (IQAC) has been constituted at Christ College of Engineering, Irinjalakuda, in 2017. The prime focus of IQAC is to institutionalize the process of quality enhancement and sustenance in the College. The Internal Quality Assurance Cell provides necessary advice and guidelines to the administration to uphold high-quality academic and administrative work. Ever in quest for excellence, the IQAC functions to assure institutional accountability with probity to all the stakeholders and society as a whole.

Since quality enhancement is a continuous process, the IQAC has become part of the institution's system and works toward realizing the goals of quality enhancement. The IQAC is responsible for taking necessary measures foreseen to improve the quality of education of the institution. The cell works towards various accreditation aspects and helps the institution to set benchmarks. It assesses the performance of the institute periodically, conducts internal audits, and assists the external audit by KTU.

OBJECTIVES:

- To create and develop a quality structure with constant, conscious, and planned actions to increase the internal quality of the institution.
- To implement quality enhancement measures at various academic and administrative levels by introducing consistent efforts towards internal quality.
- To provide a platform to improve the institution's quality in line with various accreditation standards

Functions of the IQAC

The functions of the IQAC of Christ College of Engineering:

- Development of quality enhancement techniques for various academic and extracurricular activities.
- Dissemination of information on various quality parameters of higher education and acting as a nodal agency of the institution for coordinating quality-related activities, including adoption of best practices.

- Organization of institutional workshops and seminars on quality-related themes and creating a conscious effort toward internal quality.
- Initiate the implementation of feedback responses from all stakeholders and efforts towards achieving quality-related institutional processes.
- Development and application of quality benchmarks/parameters for various academic and administrative activities of the institution
- Promotion of quality in the teaching-learning process by adopting methods and techniques in line with global quality standards.
- Ensure an error-free evaluation procedure.

BENEFITS

IQAC will facilitate the following benefits

- Ensure internalization of the quality culture.
- Provide a sound basis for decision-making to improve institutional functioning.
- Act as a dynamic system for quality assurance.
- Ensure enhancement and coordination among various activities of the institution and institutionalize all good practices.
- Build an organized methodology of documentation and internal communication.

INNOVATION AND ENTREPRENEURSHIP DEVELOPMENT CENTRE

The Innovation and Entrepreneurship Development Centre (IEDC) is a platform created by Kerala Startup Mission to promote innovation and entrepreneurship among students, teachers, and other stakeholders in society. The primary objective of an IEDC is to encourage and support students to develop their innovative ideas into successful start-ups or businesses. IEDC of Christ College of Engineering (IEDC CCE) was inaugurated in 2016, and it works as a hub of innovation and entrepreneurship not only for the students but also for the grassroots-level innovators in and around Irinjalakuda. This organization provides students and other stakeholders with opportunities to develop and showcase their entrepreneurial skills and fosters an environment that encourages innovation and creativity.

IEDC CCE provides a conducive environment and resources to foster creativity, critical thinking, and problem-solving skills among students. It typically offers various programs and initiatives to promote innovation and entrepreneurship, such as hackathons, workshops, seminars, mentorship, funding opportunities, networking events, and incubation facilities. The activities of IEDC CCE help the students to develop their entrepreneurial mindset, acquire business skills, and gain practical experience in running a start-up or business.

Since its inception, IEDC CCE has achieved many accolades, including the second runner-up position in the state-wide innovation ranking system called IPL (Innovators Premier League) organized by Kerala Startup Mission. IEDC CCE has also emerged as the top performer in the Thrissur district in IPL 1.0. We have continued our promising performance in the second season of the IPL to become the first runner-up in Kerala state among 425 IEDCs. IEDC CCE remained the top performer in the Thrissur district in IPL 2.0 too. IEDC CCE has produced many young innovators who brought more glory in terms of winning the Smart India Hackathon in 2018 and 2020. The young innovators in IEDCCCE have bagged various prizes in hackathons and ideathons organized by State and Central government bodies.

IEDC CCE was upgraded to the next level by adding a Technology Business Incubator (TBI) in 2020. The technology business incubator named TBI CCE got accredited by Kerala Startup Mission in March 2022. It is one of the 21 accredited TBIs in Kerala State. TBI CCE is designed to support the development of technology-based startups or businesses.

ETLAB ACADEMIC MANAGEMENT SYSTEM (AMS)

Etlab is a cloud-based, comprehensive Campus ERP and Academic Management System (AMS) that provides centralized and automated administration. This system replaces conventional methods to support collaborative learning, digital document management, real-time report generation, and student-parent notifications.

BENEFITS OF THE SYSTEM

Faculty & Staff Capabilities

Report Referrals: Access and refer to previously created academic reports and institutional documents.

Attendance Management: Mark student attendance online and generate automated monthly attendance reports.

Assignment Tracking: Post academic assignments in advance and track timely student submissions.

Exam Generation: Conduct online quizzes and create structured question papers for physical examinations.

Performance Consolidation: Consolidate student assessment data and automatically generate performance reports.

Instant Notifications: Disseminate official institutional notifications and circulars directly to classes.

Student Portal Features

Material Access: Retrieve digital course materials, lecture notes, and syllabus details at any time.

Easy Submissions: Digitally submit assignments and complete online quizzes from anywhere.

Online Assessments: Take scheduled online tests directly through the student platform.

Result Tracking: Monitor series exam marks and assignment grading results in real time.

Continuous Feedback: Submit regular feedback regarding courses, faculty, and academic modules.

Fee Management: Review pending fee structures and make secure online payments directly through the student portal.

Summary

Overall, this Academic Management System streamlines day-to-day operations, reduces administrative overhead, and makes campus life easier for both educators and students.

INTERNAL COMPLAINTS COMMITTEE

The Internal Complaints Committee (ICC) of Christ College of Engineering (Autonomous) aims to create a safe working environment for women by preventing sexual harassment in the workplace and receiving and redressing complaints of sexual harassment in a time-bound, fair manner, while maintaining confidentiality and sensitivity. The committee organises awareness programs and workshops to sensitise employees regarding the provisions of the POSH Act and promote gender-sensitive behaviour at the workplace.

The committee accepts and registers complaints of sexual harassment from any woman employee (including Faculty, non-teaching staff, and students) through ICC mail internalcomplaint@cce.edu.in. Dr Krishnapriya S, Associate Professor of Electronics and Communication Engineering, is the president of the committee. The committee has faculty members from various departments and student members from Civil, CS, and MBA departments.

RESEARCH AND DEVELOPMENT (R&D) CELL

The Research and Development (R&D) Cell promotes a culture of research, innovation, and knowledge creation within the institution. It facilitates and encourages faculty and students to undertake quality research in emerging and interdisciplinary areas. The Cell provides guidance and support for preparing research proposals and securing funding from various agencies. It encourages faculty members to publish their research findings in reputed journals, conferences, and other scholarly platforms. The R&D Cell promotes collaboration with industries, research institutions, universities, and other academic organizations. It supports the organization of seminars, workshops, expert talks, training programmes, and research-oriented events. The Cell motivates students to participate in research projects, innovation activities, competitions, and technology development initiatives. It facilitates the effective utilization and sharing of research facilities, laboratories, instruments, and other institutional resources. The Cell also monitors research activities and maintains records of publications, projects, patents, consultancy, and other research outcomes. Through these initiatives, the R&D Cell aims to strengthen the institution's research ecosystem and contribute to impactful and socially relevant innovations.

RESEARCH LAB FACILITY

The Research Lab Facility established by the Research and Development Cell provides faculty members with a dedicated space and essential resources to support research activities, literature

review, academic writing, and manuscript preparation. The facility provides access to research-support tools such as Claude AI, Jenni AI, and QuillBot for literature review, academic writing, citation assistance, paraphrasing, and language enhancement. Turnitin is also provided for plagiarism checking and similarity analysis, helping researchers ensure the originality and academic integrity of their manuscripts. The facility promotes the responsible and ethical use of these tools as supportive resources while emphasizing the importance of original research, critical analysis, and scholarly contributions. The Research Lab is located in Room No. 212, St. Chavara Block, and is available to faculty members for research-related activities and manuscript preparation.

SOCIO-ECONOMICALLY DISADVANTAGED GROUP (SEDGS) CELL

Objectives

1. To protect all the constitutional rights of the SEDGs students.
2. To ensure that the HEIs are inclusive, safe, and secure for the SEDGs students.
3. To provide socio-emotional and academic support and mentoring for the students belonging to the SEDGs through a proper counselling and monitoring programme.
4. To ensure proper implementation and monitoring of orientation and bridge courses designed by the HEIs to benefit SEDGs students.
5. To ensure implementation of all such programmes designed and developed by HEIs to increase the participation of SEDGs students in academic activities.
6. To ensure implementation of Government's policies, including reservation policies and various schemes, programmes, facilities and guidelines for SEDGs students.
7. To ensure that the HEIs develop appropriate outreach programmes to help the SEDGs students to avail the various opportunities of educational/academic programmes of HEIs.
8. To ensure proper implementation of preventive measures and Laws against discrimination and atrocities, and for safeguards of students belonging to respective categories under SEDGs.
9. To circulate, publicize, facilitate, and monitor the implementation of all UGC and Government guidelines and instructions issued from time to time in reference to SEDGs.
10. To redress the grievances and complaints of the SEDGs students within 15 days through a Grievances Redressal Committee (GRC) without compromising the safety, privacy and dignity of the complainant.

Functions

1. To co-ordinate with other existing cells and statutory bodies of the HEIs and enable implementation of the existing schemes and provisions, including scholarships and fellowships of the Govt. of India and respective States.
2. To ensure the implementation of orientation and bridge courses, earn-while-learn schemes, and outreach programmes designed and developed by HEIs for SEDGs.
3. To provide socio-economic, academic, and psychological support and mentoring for such students through proper counselling and mentoring programmes.
4. To ensure sensitization of faculty, staff, counsellors, and students on the SEDGs issues and their inclusion in all aspects of the HEIs.
5. To explore and generate funds from various sources like Corporate Social Responsibility (CSR) and Alumni to provide more financial assistance and scholarships to SEDGs to mitigate opportunity costs and fees for pursuing higher education.
6. To coordinate with the Internal Quality Assurance Cell (IQAC) to raise awareness about the implementation of various policies for inclusive and equitable quality higher education.
7. To work as a 'Single Window' for students belonging to SEDGs for their grievances, basic needs, amenities, facilities, welfare measures, and scholarships and fellowships.
8. To upload and disseminate guidelines, facilities, welfare, and safety measures on HEI's portal and maintain such records to review and monitor amenities and basic facilities for a safe and secure environment for SEDGs.
9. To circulate, publicize, and facilitate existing welfare schemes like – Remedial, NET, entry into services, and residential Coaching for SC/ST/OBC (non-creamy layer), Minority Community, and PwD Students.
10. To establish a team of counsellors, social workers, and faculty members to provide emotional and social support to SEDGs to adapt to the environment of the HEI.
11. To focus on overall personality and skill development, including professional and soft skills, to ensure enhanced student employability.
12. To organize periodic meetings and to monitor the progress of various schemes and all the HEIs may prepare a database of such schemes for SEDGs.
13. To assess the needs of SEDGs and make necessary recommendations to the authorities of the HEIs.
14. To make faculty, staff, students, and service professionals aware of facilities available for SEDGs.
15. To sensitize all the students to bring an attitudinal change towards SEDGs to ensure participation of SEDGs in curricular, co-curricular, and extra-curricular activities in the HEIs.

16. To hold regular meetings with representatives of SEDG students to check their grievances and also meet with management/authorities of HEIs to facilitate discussion of the grievances of SEDG students and maintain the confidentiality of deliberations and data.
17. To review, monitor, and ensure disposal of all grievances within 15 days.
18. To inform all students during induction/counselling sessions about the zero-tolerance policy for any form of discrimination.

VARIOUS CLUBS OF CCE

Various clubs are in the institute for the purpose of developing skills, curiosity, technical confidence, maker culture, self-learning, updating knowledge about future technologies, and peer skill sharing among the students. Each club works under a faculty member as an advisor and a Student Club Lead.

1. CULINARY & HOLISTIC CLUB

The Culinary & Holistic Club is a student-centered platform that brings together culinary creativity, healthy living, wellness, and community engagement. The club aims to create opportunities for students to explore food beyond cooking by developing an appreciation for nutrition, mindful eating, traditional food practices, sustainability, personal well-being, and the joy of sharing food with others.

Through interactive workshops, competitions, awareness programmes, creative challenges, and hands-on activities, the club encourages students to build practical life skills while promoting a balanced and healthy lifestyle. Activities may include healthy cooking and no-fire challenges, potluck events, healthy drink competitions, food photography and poster contests, table etiquette workshops, recipe challenges, wellness activities, mindful eating sessions, and sustainable food initiatives.

2. CYCLE CLUB

The Cycling Club at Christ College of Engineering is a vibrant community that encourages students to embrace cycling as a means of fitness, recreation, and personal growth. It provides an opportunity to step away from academic pressures, stay active, and develop physical strength, endurance, and mental well-being through regular cycling activities.

With a focus on health, sustainability, and community participation, the club promotes cycling as an environmentally friendly mode of transport. Members can take part in campus rides, recreational cycling, group rides, and long-distance challenges that encourage teamwork and determination. By bringing together cycling enthusiasts of all skill levels, the club aims to create a healthier, greener, and more energetic campus community.

3. ENGLISH CLUB

English Club is a platform for students to develop greater confidence, competence, and command over the English language. The club aims to help students overcome the fear and hesitation associated with using English, while providing opportunities for those who are already confident to further strengthen their communication and language skills. Through interactive activities, discussions, presentations, creative engagements, and practical experiences, the club encourages students to express themselves freely, communicate effectively, and improve their overall visibility and presence. Above all, the English Club is a space where every student—regardless of their current level of proficiency—can learn, practice, participate, and grow with confidence.

4. FILM CLUB

CCE Film Club is the official cinema community of Christ College of Engineering, launched in association with IEDC CCE. It brings together students who share a love for film — whether that means dissecting a favorite director's work, arguing about the best film of the year, or simply wanting a space full of people who take cinema as seriously as they do. The club centres on the knowledge, technical, and recreational side of cinema — film analysis and reviews, quizzes, frame and scene recreations, behind-the-scenes exploration, and discussions that go beyond just watching a film.

5. READING CLUB

The Reading Club of Christ College of Engineering (Autonomous) is a vibrant space where books, ideas, and creativity come together. We inspire students to read, reflect, express, and explore through books, discussions, reviews, literary events, and creative activities. More than a reading club, Literary Canvas is a community where every page sparks an idea, and every voice adds colour to the canvas of knowledge.

6. ROBOTICS CLUB

The Robotics Club at Christ College of Engineering (Autonomous) is a student-driven platform established to foster innovation, creativity, and practical learning in robotics and automation. The club provides students with opportunities to explore robotics, embedded systems, IoT, artificial intelligence, and autonomous systems through hands-on projects, workshops, technical competitions, and collaborative activities. It encourages students to transform theoretical knowledge into real-world solutions while developing skills in design, programming, electronics, mechanical integration, problem-solving, and teamwork. Through industry interactions, expert sessions, and participation in robotics competitions, the club aims to nurture an innovative and entrepreneurial mindset and prepare students to address emerging technological challenges.

7. SCIENCE CLUB

The Science Club of Christ College of Engineering, Irinjalakuda aims to nurture scientific thinking, curiosity, creativity, and responsible inquiry among students. Through student-led learning and collaborative experiences, the club seeks to connect scientific understanding with the changing world around us, encouraging students to recognise the wider impact of science on society, nature, and human life. It also aims to cultivate teamwork, responsibility, and appreciation for life and the environment, reminding us that meaningful growth comes from patience, care, focused effort, and consistent discipline. In this journey, the club strives to create not only scientifically aware students, but thoughtful individuals who can contribute positively to the world they live in.

8. SPEECH CLUB

The Speech Club of Christ College of Engineering (Autonomous) is a student body dedicated to developing effective communication, critical thinking, and leadership skills among college students. Its activities include prepared and impromptu speeches, debates, peer feedback workshops, and participation in inter-college competitions. The club aims to help members overcome stage fear, articulate ideas with clarity and confidence, and prepare for professional settings such as interviews, presentations, and group discussions. Open to students of all disciplines and experience levels, the club offers a supportive platform for continuous learning and personal growth.

9. DANCE CLUB

Lyhara, the Dance Club of Christ College of Engineering (Autonomous), is a vibrant platform that brings together students who share a passion for dance, creativity, and cultural expression. The club provides opportunities for students to explore diverse dance forms, develop their skills, build confidence, and express themselves through performance.

10. COMMUNITY COMMITTED CLUB

The Community Committed Club of Christ College of Engineering (Autonomous), Irinjalakuda is a student-driven initiative dedicated to identifying community needs and developing practical, sustainable, and socially responsible solutions. The club provides a platform for students to apply their technical knowledge, creativity, teamwork, and problem-solving skills to address real-world challenges and contribute meaningfully to society. The club is founded on the principle that engineering extends beyond the classroom and should create a positive impact on the community. Through a combination of technical innovation, community service, and awareness initiatives, the club encourages students to become responsible citizens and socially conscious engineers.

11. CONTEMPORARY EVENT CLUB

The Contemporary Club of Christ College of Engineering (Autonomous) is a vibrant platform designed to nurture students' creativity, discover and showcase their unique talents, and encourage self-expression beyond the classroom. Students can register with the club to explore and present their skills in various creative fields, while the club regularly organizes innovative and engaging programmes based on emerging interests and opportunities. It aims to create a dynamic space where every student can express, explore, and grow, making their talents an integral part of campus life.

12. MUSIC CLUB

ISAI Music Club is the vibrant music community of CHRIST College of Engineering (Autonomous), created to nurture and celebrate the musical

talents, creativity, and passion of students. The club provides a welcoming platform where students can come together to learn, perform, collaborate, and express themselves through music. ISAI believes that music goes beyond performance—it fosters creativity, confidence, teamwork, emotional well-being, and a strong sense of community. The club welcomes students of all skill levels, from beginners who simply love music to experienced singers and instrumentalists who wish to showcase and further develop their talents.

Throughout the academic year, ISAI organizes a variety of engaging activities and events, including Music Jam sessions, singing competitions, Anthakshari, open-mic sessions, musical celebrations, and collaborative performances. These activities provide students with opportunities to perform in a friendly environment, explore different genres, develop their skills, and connect with fellow music enthusiasts.

13. QUIZ CLUB

The Quiz Club of Christ College of Engineering (Autonomous), Irinjalakuda is a vibrant platform dedicated to nurturing curiosity, knowledge, critical thinking, and a healthy spirit of competition among students. The club provides opportunities for students to explore a wide range of topics, including current affairs, science and technology, history, literature, sports, entertainment, and emerging trends through engaging quizzes and interactive activities. Beyond conventional quiz competitions, the club aims to encourage teamwork, quick thinking, effective communication, and continuous learning through regular quiz sessions, thematic challenges, interdepartmental competitions, and innovative knowledge-based activities. By bringing together students with diverse interests and creating a culture of learning beyond the classroom, the Quiz Club contributes to the holistic development of students and promotes the idea that learning can be both intellectually stimulating and enjoyable.

14. SPACE CLUB

The GOLAVID Space & Astronomy Club of Christ College of Engineering (Autonomous), Irinjalakuda is a dynamic platform dedicated to nurturing curiosity, scientific temper, innovation, and a passion for the universe among students. The club provides opportunities for students to explore a wide range of topics including astronomy, space technology, astrophysics,

defence technology, satellite systems, and emerging trends in space research through engaging talks, workshops, and interactive activities. Beyond conventional academic learning, the club aims to encourage teamwork, creative thinking, effective communication, and continuous learning through regular stargazing sessions, thematic discussions, idea pitching competitions, and innovative knowledge-based activities. By bringing together students with diverse interests and creating a culture of exploration beyond the classroom, the Space Club contributes to the holistic development of students and promotes the idea that learning about the cosmos can be both intellectually inspiring and enjoyable.

15. ACTORS' CLUB

The Actors' Club is the theatre and performing arts community of Christ College of Engineering (Autonomous), Irinjalakuda. It gives students a stage to act, write, direct, and tell stories, alongside the demands of an engineering education. Whether a student has years of stage experience or has never faced an audience, the club offers a welcoming space to learn, experiment, and grow.

16. DEBATE CLUB

The Debate Club of Christ College of Engineering (Autonomous) provides a dynamic platform for students to develop and showcase their skills in public speaking, critical thinking, logical reasoning, and effective communication. The club encourages students to engage in constructive discussions and debates on academic, social, technological, cultural, and contemporary issues, helping them develop the ability to analyse different perspectives and present arguments with clarity and confidence. Through debates, discussions, workshops, and competitions, the club aims to foster intellectual curiosity, respectful dialogue, teamwork, leadership, and informed decision-making, while preparing students to communicate effectively in both academic and professional environments.

17. COMEDY CLUB

The CCE Comedy Club is a student-focused initiative of Christ College of Engineering (Autonomous), Irinjalakuda, established to provide a vibrant platform for students to explore humour, creativity, performance, and self-

expression. The club aims to create an engaging campus environment where students can develop confidence, communication skills, creativity, and teamwork through comedy and performing arts activities. The club functions with the objective of promoting humour, stage confidence, creativity, and student engagement through a variety of entertaining and participatory activities. It encourages students to move beyond the conventional classroom environment and express their ideas and talents in a positive and inclusive setting.

18. PHOTOGRAPHY CLUB

The Photography Club of Christ College of Engineering (Autonomous) provides a creative platform for students to explore and develop their skills in photography, visual storytelling, and digital media. The club encourages students to capture and document the academic, cultural, technical, social, and extracurricular activities of the institution while developing their artistic and technical abilities. Through photography workshops, photo walks, competitions, exhibitions, and collaborative projects, the club promotes creativity, observation, visual communication, and appreciation of art and photography. It also provides opportunities for students to learn camera techniques, composition, lighting, editing, and emerging digital imaging technologies.

19. YUVA CLUB

The Yuva Club of Christ College of Engineering (Autonomous) is a vibrant student platform that encourages young minds to develop leadership, creativity, social responsibility, and a spirit of active participation in college and community activities. The club provides opportunities for students to engage in cultural, educational, social, and awareness-oriented programmes, while nurturing teamwork, confidence, communication skills, and responsible citizenship. Through various initiatives and collaborative activities, Yuva Club aims to empower students to become proactive and socially conscious individuals who can contribute positively to society.

20. GAMING CLUB

The Gaming Club at Christ College of Engineering (Autonomous), Irinjalakuda, is a student-driven initiative that serves as a dynamic hub for all gaming enthusiasts. It provides a structured yet inclusive

environment where students can pursue their passion for e-sports, game development, and interactive media. Far from being a mere hobby group, the club is a bustling community that bridges the gap between recreation and professional skill acquisition. By leveraging the autonomy of the college, the club integrates gaming with technology and leadership, organizing college-wide tournaments, workshops on game design principles, and collaborative streaming sessions. It operates on the philosophy that a strong gaming community is one built on mutual respect, strategic thinking, and a commitment to technical excellence. The club cultivates a diverse range of opportunities, preparing members not just to be better players, but to be the future designers, developers, and team managers in the multi-billion-dollar gaming industry, reflecting the institution's commitment to holistic education and modern-day technology trends.

21. MARTIAL ARTS CLUB

The Martial Arts Club at Christ College of Engineering (Autonomous), Irinjalakuda, is a dedicated student community focused on physical fitness, self-defence mastery, and traditional discipline. Leveraging the institution's commitment to holistic development, the club brings together practitioners and beginners in disciplines like Kalaripayattu, Karate, Taekwondo, and Judo. It provides a safe, structured space for students to channel energy, build core physical strength, and develop high levels of mental focus and resilience alongside their rigorous engineering curriculum.

PROFESSIONAL BODIES

INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS (IEEE)

IEEE's core purpose is to foster technological innovation and excellence for the benefit of humanity. IEEE and its members inspire a global community through its highly cited publications, conferences, technology standards, and professional and educational activities. IEEE is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity. Under IEEE SB, we have the following societies.

IEEE Computer Society of India - The IEEE Computer Society (IEEE CS) is the premier source for information, inspiration, and collaboration in Computer Science and Engineering.

IEEE PES Student's Chapter - The student's chapter of IEEE Power and Energy Society (IEEE-PES) is functioning in the Electrical and Electronics Department with student members and faculty members. The executive committee, along with the faculty advisor, will monitor various activities organized on behalf of the chapter.

THE INSTITUTION OF ENGINEERS (INDIA) (IEI)

The Institution of Engineers (India), the IEI, established in 1920, is a national organization for engineers in India. It has more than one million members in 15 engineering disciplines in 125 centers or chapters in India and overseas, and is the world's largest multi-disciplinary engineering professional society. Being a multi-disciplinary professional body, we have the following IEI Student's Chapters;

The IEI Civil Engineering Students' Chapter – It was constituted in 2021. Technical activities of the Chapter (expert talks, industrial visits, workshops, competitions, project exhibitions, etc.) help students to update technical knowledge, implement ideas, improve skills, and build professional networks to pursue career growth.

IEI EEE Student's Chapter - There are student members and faculty members in the chapter. There is an elected executive committee of students along with a faculty advisor to organize various technical programmes. Industrial visits, technical workshops, add-on trainings, etc., are the major events coordinated by the IEI chapter.

COMPUTER SOCIETY OF INDIA (CSI)

Computer Society of India (CSI) was established in 1965. Today CSI takes pride in being the

largest and most professionally managed association of and for IT professionals in India. The purposes of the Society are scientific and educational, directed towards the advancement of the theory and practice of computer science and IT.

Computer Society of India (CSI) Student Branch – CCE CSI is approved by the Computer Society of India, Chennai on 1st January 2020. We have more than 100 student members in the CCE-CSI Student Branch.

INSTITUTION OF ELECTRONICS & TELECOMMUNICATION ENGINEERS (IETE)

Founded in 1953, the Institution of Electronics and Telecommunication Engineers (IETE) is a leading professional society devoted to the advancement of Science & Technology in Electronics, Telecommunication, Information Technology, Computer Science and other related disciplines. IETE serves more than 1,25,000 Corporate, student, and ISF Members through its 63 Centres spread all over India, including one at Kathmandu (Nepal).

IETE Students' Forum (ISF) - Student Chapters of the IETE is known as IETE Students' Forum (ISF). The ISF Unit at Christ College of Engineering was established under the IETE Kochi Centre under the patronage of the Department of ECE.

SOCIETY OF AUTOMOTIVE ENGINEERS (SAE)

SAE International is a globally active professional association and standards-developing organization for engineering professionals in various industries. Aside from its standardization efforts, SAE International also devotes resources to projects and programs in STEM education, professional certification, and collegiate design competitions. The SAE Collegiate Club provides an opportunity for college students to go beyond textbook theory and replicate the process of engineering design and manufacturing.

SAE student chapter - The objective of SAE CCE is to encourage, promote, and advance interdisciplinary co-operation amongst students and working professionals like scientists and engineers.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS (ASME)

The American Society of Mechanical Engineers (ASME) is an international professional body that works with a vision of promoting the art, science, and practice of multidisciplinary

engineering and allied sciences around the globe through continuing education, training, and professional development, setting the codes and standards, research, conferences and publications, government relations, and other forms of outreach.

PROJECT MANAGEMENT INSTITUTE (PMI)

The Project Management Institute is a U.S.-based not-for-profit professional organization for project management. PMI is the world's largest project manager community, connecting you with thought leaders and trend-setters around the globe.

Project Management Institute (PMI) Academic Forum - PMI Academic Forum of Christ College of Engineering was inaugurated on 10th August 2021.

CII Yuva Yi Kochi – Student Chapter- The CII Yuva Yi (Young Indians) Kochi Student Chapter at Christ College of Engineering (Autonomous), Irinjalakuda, is the student arm of the Confederation of Indian Industry's youth wing — one of India's most prominent platforms for developing socially conscious and professionally capable young leaders

SANKOFA CLUB

In association with SANKOFA (IEEE Smart Village) “*Reclaiming Roots, Restoring Future.*” The Sankofa Initiative brings STREAM (Science, Technology, Reading, Engineering, Art, and Mathematics) education to isolated and underserved communities across the developing world. Inspired by grassroots programs like Aashraa Foundation's work in India, our mission is to co-create culturally rooted, practical, and sustainable learning experiences for children and families who are often forgotten.

BUILDERS ASSOCIATION OF INDIA (BAI) STUDENT CHAPTER

The Builders Association of India (BAI) Student Chapter at Christ College of Engineering (Autonomous), Irinjalakuda, was officially inaugurated on April 4, 2025, by the Department of Civil Engineering. Established through a milestone Memorandum of Understanding (MoU) with BAI, this professional chapter serves as a vital conduit bridging the gap between rigorous academic engineering concepts and the dynamic realities of the construction and infrastructure industries.

INDIAN SOCIETY OF TRAINING AND DEVELOPMENT (ISTD)

The Indian Society for Training and Development (ISTD), established in April 1970, is a national-

level professional and non-profit society registered under the Societies Registration Act, 1860. **Indian Society of Training and Development (ISTD) Student Chapter** -The ISTD (Indian Society for Training and Development) inauguration at Christ Institute of Business Administration was a landmark event, emphasizing the importance of skill development and professional excellence.

THRISSUR MANAGEMENT ASSOCIATION (TMA)

The Thrissur Management Association (TMA) is a professional management association that promotes management education, professional development, leadership, networking, and interaction between academia and industry. TMA provides a platform for students, academicians, entrepreneurs, and management professionals to share knowledge, develop professional competencies, and gain exposure to contemporary business practices.

TMA Student Chapter -The TMA Student Chapter at Christ Institute of Business Administration (CIBA) provides MBA students with opportunities to connect their academic learning with real-world management practices. The chapter serves as a platform for students to interact with industry professionals, management experts, entrepreneurs, and academicians, thereby developing their leadership, communication, managerial, and entrepreneurial skills.

American Society of Civil Engineers (ASCE)-The American Society of Civil Engineers (ASCE) is a leading international professional organization dedicated to advancing the civil engineering profession and promoting excellence in the planning, design, construction, and maintenance of infrastructure.

SPECIAL FEATURES OF CCE

WIFI CONNECTIVITY

CCE is equipped with round-the-clock Wi-Fi connectivity with a bandwidth of 500 Mbps. This high-speed internet facility enables students and faculty members to access the internet seamlessly across the campus. Seminar halls, laboratories, conference halls, hostels, and common areas are Wi-Fi enabled. Centralized authentication, supported by a state-of-the-art firewall, ensures secure and reliable internet access through computers and other Wi-Fi-enabled devices.

HOSTELS

Christ College of Engineering provides separate hostel facilities for boys and girls. Students are accommodated in shared rooms with essential amenities, including dedicated study rooms that provide a conducive environment for focused learning. The hostels maintain a safe, disciplined, and ragging-free environment, serving as a true “home away from home.” The hostels function under the supervision of faculty members and staff who serve as wardens. Their guidance and support contribute to the holistic development of students by helping them nurture their character, personality, and values.

CAFETERIA/CANTEEN

Christ College of Engineering (CCE) has a well-maintained canteen, two cafeterias, and two vending machines that provide nutritious and affordable food options for students and faculty members at nominal rates. A structured daily menu is followed, with specific food items scheduled for each day. Fixed meal timings are also provided for hostel students to ensure the timely preparation, delivery, and distribution of food.

CHAPEL / SPIRITUAL DEVELOPMENT

“The spiritual journey is not about acquiring something outside yourself; rather, you are penetrating deep layers and veils to return to the deepest truth of your own being.”

CCE provides a dedicated chapel on campus to facilitate spiritual reflection and personal growth. The chapel offers students and staff a peaceful space for prayer, meditation, and contemplation, contributing to their spiritual and holistic development.

LANGUAGE LAB

Effective communication is essential for achieving excellence in academic, professional, and personal life. The Language Lab at CCE is designed to enhance students' communication skills and build their confidence to express themselves clearly, effectively, and without hesitation.

The language training programme is structured to assess students' existing language competencies and facilitate continuous and measurable improvement. It equips students with the necessary skills and learning strategies to develop their communication abilities independently. Each student spends one hour in the Language Lab once every two weeks. Each class is divided into two batches, with one batch attending the lab each week on a rotational basis. The Language Lab is equipped with 30 computer nodes, to which students can connect their headphones and participate in various communication activities. The sessions focus on developing the four essential language skills—Listening, Speaking, Reading, and Writing—through structured and interactive activities.

AUDITORIUM

CCE has well-equipped venues to accommodate a wide range of academic, cultural, and institutional programmes. Christ Hall and St. Therese Hall, with seating capacities of approximately 200 and 100, respectively, are used for various programmes, including ceremonies, personality development sessions, orientation programmes, awareness programmes, placement talks, and other academic and co-curricular activities.

The campus also has two open auditoriums, with capacities of approximately 2,000 and 3,000, respectively, which serve as venues for large-scale events such as the Annual Day, Farewell, and other major institutional programmes. In addition, the campus features an amphitheatre that provides an open and engaging space for various academic, cultural, and student activities.

REPROGRAPHIC CENTRE

CCE has a reprographic centre located in the Chavara Block. The facility caters to the printing, photocopying, and other document reproduction requirements of students and staff.

COLLEGE BUS

CCE provides college bus transportation facilities connecting the campus with nearby towns and cities. The facility is available to students, faculty members, and staff, ensuring convenient and accessible transportation to and from the college. Currently, 19 college buses are in service.

SUSTAINABLE CAMPUS FACILITIES

1. Solar Energy System

The college has adopted solar energy generation as part of its commitment to renewable energy and sustainable campus operations. An 80 kWp grid-connected solar photovoltaic (PV) system has been proposed for installation on the rooftops of the campus buildings. The system comprises 146 solar panels of 550 Wp capacity each, supported by a grid-tied inverter and associated electrical, monitoring, earthing, and safety systems. The system is designed to support in-house electricity consumption, with provision for exporting excess generation to the grid through the net-metering mechanism.

Key Features

- 80 kWp grid-connected solar PV system.
- 146 solar panels of 550 Wp each.
- Grid-tied inverter and net-metering facility.
- Solar monitoring and energy metering system.
- Dedicated earthing and lightning protection.
- Rooftop installation with designated walkways and safety provisions.

Environmental Benefits

The solar power facility promotes the use of renewable energy, supports energy-efficient campus operations, and contributes to reducing dependence on conventional sources of electricity.

SDG Alignment: SDG 7 – Affordable and Clean Energy; SDG 9 – Industry, Innovation and Infrastructure; SDG 13 – Climate Action.

2. Decentralised Solid Waste Management – Eco Composter

The college has adopted a decentralised solid waste management approach for processing biodegradable waste at source. The proposed Eco Composter system consists of two units with four specially designed bio-bins, with a processing capacity of approximately 35 kg per bin per day. The system is intended to process segregated biodegradable waste generated within the campus. The system promotes segregation of waste into biodegradable, non-biodegradable, and sanitary waste, with separate collection and appropriate management of each category.

Key Features

- Two Eco Composter units with four bio-bins.
- Approximately 35 kg/day processing capacity per bin.

- Source-level segregation of waste.
- Separate management of biodegradable, non-biodegradable, and sanitary waste.
- Supporting tools and bio-culture for composting.
- Dedicated space and drainage provisions for the composting facility.

Environmental Benefits

The Eco Composter supports responsible solid waste management by reducing the quantity of biodegradable waste requiring disposal, encouraging source segregation, and promoting environmentally responsible waste-processing practices within the campus.

SDG Alignment: SDG 11 – Sustainable Cities and Communities; SDG 12 – Responsible Consumption and Production; SDG 13 – Climate Action.

3. Rainwater Harvesting and Water Conservation

The college has implemented a structured Rainwater Harvesting (RWH) System to promote water conservation and sustainable management of rainwater. The system collects rainwater from the rooftops of St. Mary's Block and Chavara Block through PVC downpipes, drainage channels, and collection points, and conveys it to a dedicated storage reservoir with an approximate capacity of 10 lakh litres. The system helps retain rainwater within the campus, reducing surface runoff and supporting groundwater conservation. A controlled overflow mechanism directs excess water to the adjacent field only after the storage reservoir reaches its capacity.

Key Features

- Rooftop rainwater collection from major academic blocks.
- PVC downpipes and surface drainage channels.
- Collection chambers with protective grating.
- Dedicated storage reservoir of approximately 10 lakh liters.
- Integrated rainwater conveyance network.
- Controlled overflow mechanism.

Environmental Benefits

The system contributes to sustainable campus management by conserving rainwater, reducing surface runoff, promoting groundwater recharge, and encouraging responsible water-resource management.

SDG Alignment: SDG 6 – Clean Water and Sanitation; SDG 11 – Sustainable Cities and Communities; SDG 12 – Responsible Consumption and Production; SDG 13 – Climate Action.

STUDENT SUPPORT SYSTEMS

ADVISORY SYSTEM AND MENTORING

Christ College of Engineering has an excellent mentoring system to help the students in their endeavors. The well-experienced faculty advisors act as guides and are close enough to elicit key information professionally to show students the right path in all-round development. The College implements mentoring of students right from the first semester until the completion of the programme for their academic, professional, and personal augmentation.

Number of faculty advisors: 3 faculty members per class

Number of students per advisor: 20 students on average

Frequency of meeting: Once a month

Advisor Support

The College has a mentorship program, “Faculty Advisory System,” in every academic year. A “Student Database” is maintained to record the students’ details. It is a continuous process where faculty mentors serve as Faculty Advisors to nurture and provide support to the allotted 20-30 students on average. In the first year, 2 faculty members from the Basic Science and Humanities (BS&H) department, along with a faculty member from the concerned department serve as a faculty advisor (FA). This faculty member from the department, along with another from the same department will continue as FAs for that class till the end of the programme. Faculty Advisors take care of all the matters related to the academic performance and the personal grievances of every student. They collect all the details, including academic and personal information. This enables the advisor to understand the family, social, economic, and academic background, skills, and career advancement. A student record is maintained, and a summary of all the activities is recorded.

Advisors assist their students in the following ways:

- Provide academic counseling.
- Give personal and professional guidance.
- Support students in choosing courses (MOOC courses) that meet their needs and interests.
- Accompany during industrial tours and support in co-curricular and extra-curricular activities
- Arrange remedial measures if the student is at risk of failure.

- Peer learning groups are encouraged among students.
- Identify those with personal problems and advise appropriate action.
- Appreciate the students and parents for their achievement's/honours/ social commitments.
- Essential counseling is provided to those students with low/irregular attendance, poor academic performance, and other reported pitfalls. Further, the academic performance and attendance of very weak students are communicated to their parents over the phone.
- Act as virtual on-campus guardians of students under their Advisorship and visit needy students' houses, especially during unnatural situations such as flood havoc, illness, death of Parents/injuries etc.
- During the commencement of every semester, an awareness regarding the importance of OBE is given.
- Faculty advisors should visit parents once a year.
- PTA meetings are arranged at least once in every semester.
- Mentoring meetings are conducted regularly and minutes are prepared after every Continuous Assessment Test (series test), a meeting is arranged together with Faculty Advisors and student representatives to discuss the progress of the students. A progress report will be given to the Parents.
- Slow learners and fast learners are identified from each class
- Expert talks on mentoring are arranged for students, parents, and faculty members to motivate the students to study, achieve success in their careers, and help them to be a better human being to society.

COUNSELING FACILITY

Professionally qualified counsellors are available once a week throughout the academic session. It helps the students gain the confidence to utilize their full academic and personal potential to achieve goals. Counsellors empower them with appropriate attitude & aptitude. Training and placement rooms are provided in the administrative block for this purpose. Counsellors meet each student by recording the student's details in their respective registers along with instances of any special issues.

STUDENTS' UNION

The Students' Union is a representative structure for students, through which they can become an integral part in governance and administration for all student activities taking place in the institute. Christ College of Engineering has an active academic calendar with activities to engage students in a wide spectrum of fields, be it sports, cultural activities, or technical activities. The Union plays an important role in managing all these activities. By working closely with the administration, the Students Union provides a platform for the students to reach the concerned authorities. The Union strives to work in a coordinated manner as a well-functioning team.

SC/ST/OBC CELL

The main objective of the SC/ST/OBC Cell is to guide the SC/ST & OBC students of the college to optimally utilize the benefits of the schemes offered by the State Government, Government of India (GOI) and AICTE with respect to scholarships available. The cell also collects data regarding the implementation of policies and schemes offered by the State Government, Government of India (GOI), MHRD and AICTE for SC/ST/OBC students. On an annual basis, we collect information regarding course-wise admissions of candidates belonging to the Scheduled Castes/Scheduled Tribes and OBC in the College for different courses. Finally, the cell functions as a Grievances Redressal Cell for the Grievances of SC/ST & OBC students of the college and renders them necessary help in solving their academic problems.

GATE COMMITTEE CCE

In order to motivate the students to qualify GATE, a GATE committee is constituted by the college authority for every academic year. The committee consists of at least one faculty member from each department, CE, CSE, EEE, ECE, ME, and BSH, and they are nominated as department GATE coordinators. From the dept. coordinators, two faculty members are nominated as convener and co-convener to coordinate committee activities with an adviser member.

GATE is mandatory to get admission for a master's programme with a stipend in premier institutions. Also, many public sector companies are carrying out their recruitment through GATE. Hence, the committee activities are focused on providing awareness programs among students about the importance of qualifying GATE in their career and also assisting students to

attend GATE-oriented coaching classes. The department coordinators provide necessary guidelines about GATE and study materials to students. Invited talks of external experts are arranged for guiding and motivating the students to attend GATE.

STUDENT ENRICHMENT PROGRAMME (SEP)

The Student Enrichment Program (SEP) at Christ College of Engineering is a flagship initiative designed to bridge the gap between academic curriculum and industry expectations. The program aims to provide students with opportunities to develop competencies beyond the prescribed curriculum and prepare them for successful professional careers. The SEP organizes various training sessions and certification courses throughout the academic year. It focuses on enhancing technical expertise, employability, communication skills, innovation, and overall personality development. The Student Enrichment Program plays a crucial role in fostering holistic student development and creating opportunities for experiential and industry-oriented learning. The primary objective of the Student Enrichment Program is to enhance the technical skills of students and support their professional growth. The program strives to develop industry-relevant technical competencies and ensure that students complete the prescribed enrichment activities and receive appropriate certification for the skills acquired. Through its diverse initiatives, the program strives to equip students with the knowledge, skills, values, and professional competencies required to meet the changing demands of industry and society. It seeks to create an environment where every student is encouraged to learn, innovate, develop professionally, and achieve their career aspirations.

CENTRE FOR SOCIAL ACTION

Empathy has an essential role in improving social skills and relationships with others. Centre for Social Action is intended to conduct socially committed and charity programs by the students and staff community for the socially marginalized people in society. This forum is intended to ignite and inculcate the empathy factor in the minds of our students and staff members. It envisages doing charity programs for society, such as NSS and other NGOs. This forum is also intended to conduct value added sessions to impart moral values in the student community. The First Friday moral value and motivational talks by experts from outside and inside the college are regular activities of this Forum. The final goal of this Centre for Social Action is to mold socially responsible engineers for the betterment of mankind.

INSTITUTION'S INNOVATION COUNCIL (IIC)

The Institution's Innovation Council (IIC) of Christ College of Engineering (CCE), Irinjalakuda, was established on 24th November 2020 under the Ministry of Education's Innovation Cell (MIC), Government of India. Since its inception, the IIC has been committed to fostering a vibrant culture of innovation and entrepreneurship on campus — organizing awareness sessions, supporting idea-to-venture journeys, and providing students and faculty with the resources needed to channel their entrepreneurial spirit through technology. Over the years, the IIC at CCE has grown into a nationally recognized body, achieving a 3.5-star rating in 2020–21 and a 4-star rating in 2021–22 — a testament to the institution's dedication to excellence in innovation. With representation from across all departments and active collaborations with industry partners such as Srishti Robotics and Astrek Innovations, the IIC continues to build a dynamic ecosystem where ideas are nurtured, intellectual property is created, and the next generation of entrepreneurs is shaped.

PARENT TEACHER ASSOCIATION

The Parent-Teacher Association (PTA) in CCE fosters collaboration between parents, teachers, and the college administration. The PTA aims educational experience and supports the college community's overall development. It also supports and cooperates with the College faculty and administration. It fosters and promotes good relationships among the members of the teaching staff, students, and guardians of the students. PTA takes keen interest in the smooth working and the progress of the college and in maintaining good discipline and high academic standards. Periodic interaction with the parents is arranged to monitor the progress and development of their wards. Seminars meant to enhance awareness of the problems and issues of the adolescents and parenting are organized.

Membership:

- (a) The parents/guardians of all the students on the rolls of the College shall be eligible to be members of the PTA.
- (b) The Executive Director, the Joint Director, the Principal and the other members of the teaching staff of CCE shall ipso facto be members of the PTA.
- (c) When a student is removed from the rolls of the College, the parent/guardian of the student shall ipso facto cease to be a member.

Administration:

Three main units make up the PTA:

General Body

Managing Council

Executive Committee

ALUMNI ASSOCIATION

The Christ College of Engineering Irinjalakuda Alumni Association was started in the year 2022. The scope of the association shall help and support the alma mater in its effort to achieve excellence in technical and professional education. All students who have studied at Christ College of Engineering, Irinjalakuda, and the permanent members of the faculty of Christ College of Engineering, Irinjalakuda, shall be members of the association. Membership for students will be given at the time of their exit from the college. Alumni are constantly helping the present students of Christ College of Engineering by providing training, Entrepreneurship activities, improving infrastructure facilities of the college, and providing scholarships to deserving students. The general body meeting of the alumni association is conducted on a regular basis every year, and important decisions are taken. Regular alumni - student interactions are conducted in order to promote a healthy relationship and to encourage the smooth transition from being a student to becoming an alumnus by helping the two groups connect and collaborate with each other. The alumni association also tries to promote its official online platforms (WhatsApp groups, Facebook page, Instagram account, LinkedIn group, Telegram groups) as the central hub for alumni to connect. Additionally, all alumni are registered on a platform named Almashines. We have also started various alumni chapters, thus spreading our footprint. These chapters meet periodically, and various programs and celebrations are also conducted in these chapters. Our Alumni chapters are in Dubai, Qatar, Bangalore, Hyderabad, Cochin, and Trivandrum.

ANTI-RAGGING CELL

The Christ Engineering College's Anti-Ragging Cell serves as a specialized platform to make sure that students uphold discipline in the classroom and on the college grounds. Members of the cell regularly visit every classroom to observe disruptive behavior and ensure that there is no ragging or eve-teasing on the college campus.

The Anti-ragging Committee has been constituted in the college for the security of students and

to inculcate a sense of humanism and equality among students. The principal is the Ex-officio Chairman of the Committee. Administrators, Heads of Departments from all branches, hostel wardens, PTA members, and student chairpersons from the Students Union, and the Circle Inspector of Police of a nearby Police Station are the committee members.

IPR CELL

In today's knowledge-driven world, protecting intellectual property has become paramount for individuals and institutions alike. To ensure the proper management and protection of these intangible assets, Christ College of Engineering establishes an Intellectual Property Rights (IPR) Cell. The IPR Cell focuses on identifying, safeguarding, and managing intellectual property rights of the institution, faculty, and students. It encompasses various forms of intellectual property, such as patents, copyrights, trademarks, and trade secrets. The primary objective of the IPR Cell is to facilitate innovation while ensuring legal compliance and maximizing the value derived from intellectual property assets. The IPR Cell in Christ College of Engineering is entrusted with several key responsibilities to fulfill its objectives effectively, such as

- The IPR Cell conducts workshops, seminars, and training programs to educate faculty, staff, and students about the importance of intellectual property rights.
- The Cell assists faculty and students in identifying potential intellectual property arising from their research, inventions, creative works, or other innovations.
- The IPR Cell guides and supports the filing of patent applications, copyright registrations, and other necessary legal documentation to secure intellectual property rights.

WOMEN EMPOWERMENT CELL (WEC)

The Women Empowerment Cell (WEC) at Christ Engineering College is a dedicated platform that promotes the empowerment, well-being, safety, and personal and professional development of women students and staff. The Cell works towards creating an inclusive, supportive, and respectful campus environment. The primary objective of the WEC is to promote gender equality, awareness, confidence, leadership, and personal development among women. It seeks to address issues and challenges faced by women and provide opportunities that enable them to achieve their academic, professional, and personal aspirations. The WEC organizes various awareness programmes, workshops, seminars, training sessions, and interactive activities throughout the academic year. These programmes address areas such as gender sensitization,

self-defence, leadership development, career guidance, mental well-being, health awareness, women's rights, and personal safety. The Cell provides a platform for women students and staff to share their concerns, suggestions, experiences, and ideas in a supportive environment. It encourages networking, collaboration, mutual support, and participation in initiatives that promote equality, dignity, and inclusivity. The WEC also collaborates with the college administration and other institutional bodies to organize programmes and initiatives aimed at creating a safe, inclusive, and conducive campus environment. Special emphasis is given to awareness, empowerment, safety, and capacity-building activities. Through its various initiatives, the Women Empowerment Cell strives to foster a culture of respect, dignity, equality, confidence, and equal opportunities, enabling women to recognize their potential and contribute meaningfully to the college community and society.

SDG CELL

The SDG CCE Cell at Christ College of Engineering (Autonomous) is an institutional initiative dedicated to promoting the principles of sustainable development, responsible citizenship, and environmental stewardship across the campus. The Cell seeks to connect the Sustainable Development Goals with everyday campus practices, student activities, academic engagement, and community initiatives, creating greater awareness and participation in building a sustainable future. A major focus of the Cell is the CCE Green Protocol, which encourages environmentally responsible practices throughout the institution. The Cell actively promotes SDG Awareness among students, faculty, and staff through awareness campaigns, talks, workshops, exhibitions, competitions, observances, and outreach programmes. The SDG Student Ambassador Programme forms an important student-driven component of the Cell. The Cell also encourages practical initiatives such as Eco Compost, promoting the responsible handling and productive utilization of biodegradable waste generated on campus. The SDG CCE Cell further supports sustainability assessment and resource-conscious practices, including initiatives such as Green Audit and Water Audit wherever appropriate.

DISCIPLINARY ACTION COMMITTEE

The committee is responsible for ensuring student discipline, including adherence to proper uniform, valid ID card usage, punctuality, and compliance with college rules and regulations. It addresses and maintains records of disciplinary issues and takes appropriate corrective measures

when necessary. The committee also develops preventive strategies to minimize misconduct and inappropriate behaviour on campus and promotes awareness of responsible student conduct. Through regular monitoring, counselling, awareness programmes, and coordination with relevant college authorities, the committee strives to foster a culture of discipline, responsibility, respect, and academic integrity among students.

STUDENT GRIEVANCE REDRESSAL COMMITTEE

Student Grievance Redressal Committee is constituted with the objective of handling all grievances with utmost confidentiality, ensuring the privacy and dignity of the individuals involved. Students are encouraged to submit their grievances in writing or by handing them directly to the faculty in charge of the Student Grievance Redressal Committee, or can raise their complaints through email at sgrc@cce.edu.in. The aggrieved student may appear either in person or authorize a representative to present the case. The Student Grievance Redressal Committee shall review and resolve the grievance within a period of 10 days of receipt of the complaint. After investigating the matter and identifying an appropriate solution, the Committee will forward its recommendations to the Principal for necessary action.

CULTURAL AND CELEBRATION COMMITTEE

A cultural and Celebration committee of Christ College of Engineering, Irinjalakuda, is constituted by faculty members at the beginning of every academic year. The objective of this committee is to conduct various cultural events such as TILANG, the Arts Festival Programme, Freshers' Day, Farewell, and celebrations such as Onam, Christmas, and Ramzan in the College and to encourage talents among the faculty and students. Cultural Committee plans and schedules cultural events and celebrations for the academic year and gets formal permission from the college authorities to arrange programs, which are also incorporated in the institution calendar. The committee Convener conducts a meeting of the committee to discuss and delegate tasks among staff and students.

CCE LUMINARIES

CCE Luminaries is an institutional initiative designed to identify, encourage, support, and monitor highly skilled engineering students in their pursuit of excellence in technical, professional, innovation, entrepreneurship, and leadership engagements at the state, national, and international levels. The programme aims to foster a culture of excellence by providing

mentorship, technical guidance, opportunities for participation, and recognition to deserving students. The process involves identifying students with exceptional talent, a positive attitude, and strong potential through nominations and/or recommendations from faculty advisors. The programme encourages students to participate in technical competitions, hackathons, innovation challenges, professional events, and other platforms that provide opportunities to demonstrate and enhance their skills. It also provides technical guidance and personalised mentoring to help students maximise their potential and effectively meet the requirements and parameters of various competitions and professional engagements. Student participation, progress, achievements, and outcomes are monitored through a structured mechanism. Outstanding achievers will be awarded the CCE Luminaries Badge, along with a Certificate of Excellence, in recognition of their exceptional achievements and contributions.

MAKE in CCE COMMITTEE

MAKE in CCE is an initiative of Christ College of Engineering aimed at inculcating entrepreneurial skills among students and motivating them to explore entrepreneurship, develop innovative ideas, and pursue start-up opportunities during their four years of college life. The initiative provides students with a structured platform to transform innovative ideas into viable business opportunities through mentoring, training, prototyping, incubation, and start-up support. The primary objective of MAKE in CCE is to encourage students to identify real-world problems, develop innovative solutions, and acquire the knowledge and skills required to convert their ideas into sustainable entrepreneurial ventures. The initiative promotes creativity, innovation, problem-solving, business thinking, and an entrepreneurial mindset among students. As part of the programme, shortlisted teams, after idea pitching, will be provided with opportunities for structured mentoring and capacity building to strengthen their ideas and prepare them for further evaluation. The selected teams will undergo two specialized workshops conducted with the support of external resource persons. The first workshop focuses on Pitch Deck preparation, where students are guided in effectively presenting their ideas, identifying the problem and proposed solution, understanding the target market, and communicating the potential of their innovation. The second workshop focuses on the Business Model Canvas (BMC), enabling the teams to develop and evaluate their business models, identify customer segments, value propositions, key resources, revenue streams, and other essential components required for developing sustainable and scalable ventures. Following the final pitching and

evaluation, the final 5 to 10 teams will be selected for further incubation and mentoring. The selected teams will receive additional training and guidance in Revenue Model development, Start-up Registration procedures, and available Funding Schemes. These activities are intended to familiarize students with the practical processes involved in converting innovative ideas into sustainable business ventures. The initiative further supports the selected teams in moving from the idea stage towards functional prototype development. After developing functional prototypes, the selected teams will be provided with TBI (Technology Business Incubation) space within the college campus. The incubation facility will provide opportunities for continued product development, mentoring, networking, collaboration, and other entrepreneurial activities. Through MAKE in CCE, the institution seeks to establish an ecosystem that connects innovation, entrepreneurship, mentoring, prototyping, incubation, and start-up development. The initiative provides students with opportunities to progress from identifying a problem and developing an idea to building a prototype and exploring the possibility of establishing a start-up. MAKE in CCE therefore serves as a structured platform for nurturing student innovators and aspiring entrepreneurs, encouraging them to make effective use of their college years to develop innovative solutions and explore entrepreneurship. Through systematic training, external mentoring, evaluation, incubation, and institutional support, the initiative aims to foster a culture of innovation, entrepreneurship, and self-reliance among students.

e-YANTRA ROBOTICS LABORATORY

The e-Yantra Robotics Laboratory at Christ College of Engineering (Autonomous) is a state-of-the-art facility dedicated to experiential learning, innovation, and research in robotics, embedded systems, and automation. Established in association with the e-Yantra initiative of IIT Bombay, supported by the Ministry of Human Resource Development (MHRD), Government of India, the laboratory provides students with access to robotic platforms, embedded systems, sensors, actuators, and advanced development tools. It facilitates hands-on experimentation, project-based learning, workshops, and participation in e-Yantra competitions and innovation initiatives. The facility fosters interdisciplinary skills in electronics, programming, control systems, IoT, and artificial intelligence, nurturing creativity, problem-solving, teamwork, and industry-relevant competencies. Through the laboratory, students are encouraged to participate in the e-Yantra Robotics Competition (eYRC), e-Yantra Innovation Challenge (EYIC), and related activities,

fostering creativity, problem-solving abilities, teamwork, and innovation while preparing them for advanced studies, research, and careers in robotics and automation.

INTEL UNNATI AI SERVER

The Intel® Unnati AI Server established at Christ College of Engineering (Autonomous), Irinjalakuda, is a high-performance computing platform designed to support Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, and data-intensive research. The server provides the computational infrastructure required for training and testing AI/ML models, processing large datasets, running deep learning experiments, and developing advanced AI applications. It enables students and faculty to move beyond conventional laboratory systems and work with accelerated computing environments used in modern AI research and industry.

Key Applications

Artificial Intelligence & Machine Learning – Model development, training, testing, and experimentation.

Deep Learning – Training CNNs, RNNs, Transformers, and other deep neural networks.

Generative AI – Experimentation with modern generative AI and large AI models.

Data Science & Big Data Analytics – Processing and analyzing large datasets.

Computer Vision & NLP– Image, video, speech, and natural-language processing applications.

Research & Innovation – Supporting faculty and student research projects and AI-based solutions.

Student Projects – Providing computational resources for final-year projects, mini projects, hackathons, and internships.

Academic Significance

The server will provide students with hands-on experience in high-performance AI computing, helping them understand the complete AI workflow—from data preparation and model development to computationally intensive training and evaluation. It will also serve as a shared research infrastructure for the Department of Computer Science and Engineering, encouraging interdisciplinary projects, industry-oriented research, innovation, and collaboration with technology partners. In essence, the Intel Unnati AI Server provides the computational backbone of the Intel Unnati AI Lab, enabling the college to undertake advanced AI learning, experimentation, research, and innovation.

CNC MACHINING FACILITY

The Department of Mechanical Engineering at Christ College of Engineering (Autonomous), Irinjalakuda, houses a dedicated CNC Machining Facility equipped with industrial-grade Computer Numerical Control (CNC) machines to support advanced manufacturing education, training, research, consultancy, and industrial requirements. The facility includes an ACE Micromatic SJE 10LM CNC Turning Centre and a BFW Agni V4 3-Axis Vertical Machining Centre, providing capabilities for precision turning, milling, drilling, contouring, and other complex machining operations.

The CNC Turning Centre has a 200 mm chuck diameter, 550 mm swing over bed, and 615 mm distance between centres, while the BFW Agni V4 features a 450 × 800 mm table with 650 mm, 450 mm, and 450 mm X, Y, and Z-axis travels, respectively. These machines enable the production of components with high dimensional accuracy, repeatability, and surface quality. The facility actively undertakes machining and component manufacturing work for industries, offering solutions for prototype development, precision components, small-batch production, and customized machining requirements. It also provides students with hands-on exposure to CNC programming, CAM, tooling, process planning, and modern manufacturing practices. Through its industry-oriented activities, the facility strengthens academia–industry interaction and promotes skill development, innovation, applied research, and technology-enabled manufacturing.

ADMINISTRATIVE COMMITTEES

2026-2027

Committee	Convener(c)
Internal Quality Assurance Cell (IQAC)	Dr. Krishnapriya M G
Examination Cell	Dr. Ravishankar A N
College Council	Dr. Soloman P A
Academic Calendar & Timetable	Ms. Neethu P R
Anti Ragging Committee	Dr. Soloman P A
Internal Complaints Committee	Dr. Krishnapriya S
Socio-Economically Disadvantaged Group (SEDG) Cell	Dr. Soloman P A
Equal Opportunity Cell	Dr. Soloman P A
Student Grievance Redressal Committee (SGRC)	Dr. Sijo M T
Committee for Accessibility Standards and Inclusive Practices	Ms. Athithya S
Finance Committee	Dr. Soloman P A
Research and Development Cell	Dr. Elizabeth Elias
Mentoring & Counselling Cell	Ms. Reena C G
Faculty Welfare Body	Ms. Petcy Annie M.M.
Internal Academic Audit (KTU)	Dr. Krishnapriya M G
Students Union	Mr. Hingston Xavier
Alumni Association	Mr. Sanjesh K S
Placement & Training	Dr. Manoj George
NSS Cell	Mr. Abhilash O S
IEDC/TBI	Ms. Aswathy P. Sajeev
PTA	Ms. Anitta Antony
SC/ST/OBC Cell	Ms. Anjana Krishna P T
Professional Bodies	Mr. Hingston Xavier
GATE Coaching	Dr. Sudha Balagopalan
Project Club	Ms. Sabira P S
Institutions Innovation Council (IIC)	Ms. Nivitha Paul
Sports	Mr. Anagh Remesh
Magazine Committee	Mr. Vaishak C Krishnan
Green Campus	Ms. Shicy N S
Library Advisory Committee	Ms. Sreekala T

SDG	Mr. Godwin P A
Admission	Fr. Milner Paul V
Hostel Committee	Fr. Milner Paul V
Disciplinary Action Committee	Dr. V. D. John
ERP Committee	Ms. Merryl Mary Forbin
Women Empowerment Cell	Dr. Vinaya Jose
SEP	Dr. Caren Babu

SCHOLARSHIPS AND ENDOWMENTS

The Management of Christ College of Engineering (Autonomous) gratefully acknowledges the well-wishers who generously contribute to instituting endowments and scholarships so that the toppers in university exams and achievements of students can be recognized with cash awards. We have endowments and also offer various scholarships which are given away to good achievers and deserving students after a strict evaluation. The endowments are instituted with eligibility criteria which are clearly laid out. The prizes are awarded to students on the Course Completion Day & Merit Day. The general endowments and scholarships are listed below.

Scholarships

Sl No.	Name of the Scholarship	Name of the Organization	Eligibility	Amount
1	CCE Management	Christ College of Engineering	North Eastern States Students	Full Fees (Tuition fee, Hostel fee, Exam fee, etc.)
			Chavara Fellowship for Financially Weaker Meritorious Students (Special Scholarships)	Up to Rs. 100500/- per year based on admission batch
			Financially weak, academically bright students and top KEAM Rank holders (Additional Scholarships)	up to Rs. 100000/-
			10/10 SGPA in any semester	Rs. 5000/- per instance
2	Tuition Fee Waiver (TFW)	Christ College of Engineering as directed by AICTE. The list of eligible students is provided by the Controller of Entrance Examinations	Highest Rank with an 8-lakh income limit. As per the AICTE norms	Tuition Fee per year
3	SC/OEC/OBC(H)	SC/ST Department (E-grantz)	SC - No income limit. OEC & OBC(H) - income up to 6 Lakhs	Full Fees Or as sanctioned by Govt.

4	OBC & General	SC/ST Department (Egrantz)	Income limits up to 1 Lakh	As per Govt. prescribed norms
5	Central Sector Scholarship	Department of Higher Education	80% marks & Income limit up to 4.5 Lakhs	Rs. 12,000/-
6	Prime Minister's Scholarship Scheme	Ministry of Home Affairs	Prime Minister's Scholarship Scheme for Central Armed Police Forces and Assam Rifles	Rs. 25,000/- to Rs. 30,000/-
7	Pragati Scholarship for Girls	AICTE	Income Limit up to 8 Lakhs & above 95% academic marks	Rs. 25,000/- to Rs. 50,000/-
8	Post Matric Scholarship Students with Disabilities	Department of Empowerment of Persons with Disabilities	Disability Students	As per Govt. prescribed norms
9	Post Matric Scholarship for ST Students - Manipur	Ministry of Tribal Affairs	Permanent resident of Manipur studying in a recognized institution with an annual family income not exceeding ₹2.5 lakh.	As per Govt. prescribed norms
10	National Scholarship for Post Graduate Studies	University Grants Commission (UGC) and Ministry of Education	PG Students	Rs. 15,000/- to Rs. 1,50,000/-

Endowments

Sl. No	Name	Name of the Sponsor	Amount	Awarded to whom
1	Mrs. Rosa Poullose Memorial Endowment	Fr. John Paliakara CMI	Rs. 150,000/- (interest on Rs. 150,000/- will be distributed per year)	Best outgoing student of the college
2	Dr. John V D Endowment	Dr. John V D	Rs. 30,000/- (interest on Rs. 30,000/- will be distributed per year)	Academic topper from pre-final year

3	Prof. Premakumar N R Endowment	Prof. Premakumar N R	Rs. 25,000/- (interest on Rs. 25,000/- will be distributed per year)	Best Academic Performer
4	Arjun P. Venugopalan Memorial Endowment	Mr. Venugopalan P	Annually Rs. 5000/-	Best outgoing student of the EEE Dept.
5	Mr. Seby George (EEE Alumni) Endowment	Mr. Seby George	Rs. 25,000/- (interest on Rs. 25,000/- will be distributed per year)	Topper (highest CGPA) outgoing student of the EEE Dept.
6	A. P. Paul Master Memorial Endowment	Dr. Vince Paul	Annually Rs. 5000/-	Best outgoing student of the CS Dept.
7	ME Alumni Endowment	ME Alumni	Annually Rs. 2000/-	Topper (highest CGPA, without any Backlog history) outgoing student of the ME Dept.
8	R.A.C.E. (Receptive Association of Civil Engineers) Endowment	CE Alumni	Annually Rs. 2000/-	Best outgoing student of the CE Dept.
9	ECE Alumni Endowment	ECE Alumni	Annually Rs. 2000/-	Best outgoing student of the ECE Dept.

ADMISSION PROCEDURE AT CCE

Institutional Policy

- Management's Right to Reject

The institution reserves the right to reject any application that does not satisfy the eligibility criteria, fails document verification, provides false information, or whose admission is considered not to be in the best interest of the institution, subject to applicable statutory regulations.

- Admission is Provisional

All admissions shall remain provisional until verification of original certificates and approval by the competent authorities, wherever applicable.

- Institution's Right to Modify Intake

The number of seats available for admission in each programme shall be subject to the approval of AICTE, APJ Abdul Kalam Technological University, Government of Kerala and other competent authorities.

- Reservation of Admission

The institution reserves the right to refuse admission to any candidate whose conduct, behavior or previous disciplinary record is found to be inconsistent with the rules, discipline or values of the institution, subject to applicable laws and regulations.

The admission policy of CCE lays down the procedure to be followed to admit students in the institution as per prevailing government rules and regulations to various programmes, namely B. Tech, M.Tech, MCA and MBA.

1. B. Tech Admissions

Admission is strictly on the basis of merit. 50% of the total seats in B. Tech. Courses are set apart for centralized allotment by the Commissioner for Entrance Examinations. The remaining 50% seats are management quota seats, out of which 15% of seats within the sanctioned intake are provided for NRI Category and given on the basis of marks obtained for Physics, Chemistry and Mathematics in 12th Standard. For the management seats, the admission is on the basis of index marks obtained by combining the percentage marks of Mathematics, Physics and Chemistry at the

Plus Two level and/or the percentage score obtained in the Kerala Engineering Entrance Examination and Christ Engineering Aptitude Test. No intermediaries are involved in our admission process. Admissions are through direct application in online/offline mode for management seats, and Government seats are allotted by the Controller of Entrance Examinations, Kerala.

Admission Procedure – Government Allotment

For getting allotment through Government Quota, the students have to go through the centralized allotment process and enter their options in the Institution Code CCE on the date specified by the Commissioner of Entrance Examination.

Fee Structure

The tuition fee applicable to each category of admission shall be as approved by the competent statutory authorities from time to time. The applicable fee structure shall be published separately by the institution.

Eligibility

Eligibility for Management Admissions

Candidates who have passed Higher Secondary Examination, Kerala, or Examinations recognized as equivalent thereto, with Physics and Mathematics as compulsory subjects and Chemistry as one of the optional subjects with at least 45% marks put together in the above subjects, are eligible for Management Quota Admission. A valid KEAM rank (or any other approved entrance examination rank as permitted by Govt. of Kerala) is mandatory for admission to the Management Seat. Also, the student needs to qualify in the test conducted by the college, Christ Engineering Aptitude Test.

Eligibility for NRI Allotment Admissions

- Eligibility for admission under the NRI Quota shall be as prescribed by the Government of Kerala, AICTE, APJ Abdul Kalam Technological University and other competent authorities from time to time.
- Candidates who have passed the Higher Secondary Examination, Kerala, or Examinations recognized as equivalent thereto, with 50% marks in Mathematics separately and 50% marks in Physics, Chemistry and Mathematics (PCM), put together are eligible for NRI Quota admission. However, excellent marks for PCM in the qualifying examination are desirable.
- KEAM (Kerala Entrance Exam) rank is not mandatory to apply under this quota.

- This quota is for applicants sponsored by NRIs and/or children of Indians employed in Gulf Countries. An NRI can sponsor the children or dependents and he/she will have to give an undertaking in the prescribed format. Also, he/she should provide a copy of his/her Passport and a copy of the VISA, all self-attested.

Eligibility for Government Allotment Admissions

- Eligibility for admission to the B. Tech. programme, admission policy and procedure shall be decided from time to time by following the guidelines issued by the Government of Kerala, the Government of India and other statutory bodies such as AICTE.
- Admission to B. Tech. shall be based on the guidelines given by the State and Central Governments on the reservation. Candidates for admission to the B. Tech. programme shall have passed the Higher Secondary Examination, Kerala or 12th Standard, T. H. S. E., V. H. S. E., C. B. S. E., I. S. C. or any other examination considered equivalent to the above-mentioned ones. Other eligibility criteria for admission is currently prescribed by the Government of Kerala through Government orders which are based on the entrance examination conducted by the Commission for Entrance Examinations, Government of Kerala and the marks in the qualifying examination subject to the relaxations allowed for backward classes and other communities as specified from time to time.
- Candidates who have passed Higher Secondary Examination, Kerala, or Examinations recognized as equivalent thereto, with Physics and Mathematics as compulsory subjects and Chemistry as one of the optional subjects, with at least 45% marks put together in the above subjects are eligible for Govt allotment.
- A valid KEAM rank is mandatory, and seat allotment is based on the KEAM rank and order of preference.

Scholarships

The AICTE-approved Tuition Fee Waiver Scheme is implemented in the college. Accordingly, students with high academic results and hailing from economically backward families are granted full tuition fee concession. 5% of the seats of the total intake will be filled under the Tuition Fee Waiver Scheme over and above the sanctioned intake. The above seats will be filled up by the allotment of the Commissioner for Entrance Examinations

2. MCA Admissions

How to Apply

Applications for admission may be submitted either online through the admission portal available on the College website or offline by submitting the prescribed application form at the College Office. website (www.cce.edu.in).

MCA Eligibility

- The eligibility criteria/norms prescribed by AICTE, DTE and Higher Education Department, Government of Kerala stipulate that;
- Candidates should have passed any graduation degree (e.g.: B.E./B.Tech. /B.Sc/ B.Com./ B.A./ etc.), preferably with Mathematics at 10+2 level or at Graduation level
- Candidates should have obtained at least 50 % marks in the Degree examination. It is 45 % in the case of candidates belonging to reserved category.
- Candidates belonging to Socially and Educationally Backward Classes (SEBC) referred to GO(P)208/66/Edn dated 2-5-96 and subsequent amendments to the order issued by the Government shall be given a relaxation of 2% marks.
- A relaxation of 5% marks from the prescribed minimum shall be allowed in the case of physically handicapped persons.
- Candidates who have passed the qualifying examination in more than one chance in the subject (excluding languages) will have their percentage marks derated by 5% for every additional appearance for ranking. Reservation of seats shall be as per rules prescribed in the relevant rules by the Directorate of Technical Education, Government of Kerala

Procedure of Selection

The admissions shall be based on the ranks obtained in the entrance examination rank list conducted by LBS and marks obtained for the qualifying examination. The seats will be allotted by the college based on merit and strictly following the reservation policy of the Government, provided there are sufficient applications from that category. LBS rank is not mandatory for students admitted under the NRI category. Candidates are advised to visit the website of the college and appear for an interview and admission as notified therein.

3. MBA Admissions

The valid test scores of the following CAT/CMAT/KMAT/any other approved tests will be accepted for admission to the Department of Business Administration (Christ College of Engineering, Autonomous). Candidates who have passed the Undergraduate degree examination with 50 % aggregate marks from any recognised University in India or abroad recognised by UGC / AIU are eligible to apply. The reserve category of OBC should have 45% marks, and SC/ST category candidates only a minimum pass is required. Students have to fill the online application available on the college website. Based on your score in the approved test and the undergraduate final marks, you will be invited for a selection process at Christ College of Engineering. Students need to attend a round of group discussion followed by a personal interview. We give due weightage to work experience in organizations or business establishments. It is mandatory that students clear any one of the entrance examinations, namely the Common Admission Test (CAT) conducted by IIM'S, the Common Management Admission Test (CMAT) conducted by AICTE, or the Kerala Management Aptitude Test (KMAT) conducted by the Commissioner of Entrance Examination, Government of Kerala.

4. M. Tech. Admission

Criteria of Eligibility for M. Tech. Admission

- a) The candidate shall be an Indian National.
- b) The candidate should have a B.Tech. Degree in the appropriate branch of APJ Abdul Kalam Technological University or a bachelor's degree in Engineering from another University approved by AICTE/UGC approved Deemed Universities in India and recognized to be eligible for higher studies by APJAKTU.
- c) In case of candidates who have an Undergraduate Degree in Engineering from foreign universities, an eligibility certificate from APJ Abdul Kalam Technological University is to be produced.
- d) The candidate should have a minimum CGPA of 6.0 on a 10-point scale in the Engineering Degree Examination. For SEBC (OBC) students, the minimum CGPA requirement is 5.5 on a 10-point scale. Wherever the credit system is/was followed, only CGPA will be considered for selection. If the candidate has obtained the bachelor's degree in Engineering from a University where the credit system is/was not followed,

he/she should have a minimum of 60% aggregate marks (For SEBC /OBC students, a minimum of 55% aggregate marks in the Engineering Degree examination is mandatory). For SC/ST candidates, a pass in the Engineering Degree Programme is sufficient.

- e) In case the CGPA by any University is mentioned on a scale other than 10 points, then the corresponding CGPA will be proportionally scaled to a 10-point scale.
- f) Candidates who have passed AMIE / AMIETE Examinations and satisfy the following conditions are also eligible for admission based on the guidelines and regulations issued by DTE. i) They must have a valid GATE score. ii) A minimum of 55% marks for Section B in the AMIE/AMIETE examination.
- g) Sponsored candidates from Industries, R&D organizations, National Laboratories, as well as Educational Institutions, with a bachelor's degree in Engineering are eligible for admission to the M.Tech. Programme.
- h) Candidates who have appeared for the final semester examination can also apply, provided he/she has passed all the subjects up to and including the 6th semester exam. Such candidates shall submit self-attested copies of all mark lists showing marks of individual subjects up to 6th semester along with the application. Selection of such candidates shall be subject to the production of qualifying degree- satisfying clauses
- i) The reservation policy of the Government of Kerala shall be followed in admission to the M. Tech. programme.
- j) The applicants seeking admission to M.Tech degree programme shall apply to the college either offline or online, and DTE and admissions are made based on merit and reservation as followed for admission to regular M.Tech degree programmes.

Admission

Govt. Quota - 50% of the total seats in each of the courses are set apart as Govt. quota seats. Candidates interested in Govt. quota seats must register their names online on the website of the Director of Technical Education (DTE), www.dtekerala.gov.in, as per their notification expected shortly. DTE will prepare a rank list by considering the candidate's GATE score/aggregate marks obtained up to the 6th semester in the qualifying degree examination. Based on the ranking by DTE, the seats can be filled by the admission office at the college if the candidate has separately given the application in college for the admission as per G.O.

(P)208/66/Edn. dated 02-05-1966. G O (MS) 95/08/SCSTDD dated 06-10- 2008 and as modified from time to time by the Govt.

Management Quota - The remaining 50% of seats are under management quota. Admission to Management seats is conducted by the Management. Application form is available in the college office.

Scholarships

Scholarship is available for candidates with a valid GATE Score at the rate of Rs. 12,400/- per month vide G.O. (Rt) No. 67/09/H.Edn. dated: 19.01.09 for the total period of 24 months.

RULES AND REGULATIONS OF THE COLLEGE

GENERAL RULES

1. It shall be the duty of every student to abide by the rules and regulations of the college, and to conduct himself/herself with discipline and decorum both within and outside the campus, in a manner befitting a student of a prestigious institute.
2. Under disciplinary action, the principal is empowered to fine, suspend, or even expel a student from the college in the interests of the institution.
3. Students should always come to the college neatly dressed in full uniform with their ID card displayed prominently. The uniform shirt should always be tucked in. No student is permitted to enter class without their ID card. Loss of ID card should be reported to the Office Manager in writing within 24 hours. A duplicate ID card will be issued in such cases on payment of the prescribed fee.
4. Students are not allowed to attend class/any college function wearing shorts, dhotis, leggings, or other casual/sports attire. They should also always dress modestly.
5. Religious pilgrimage is a personal choice, but the dress code as mentioned in 3 & 4 will still be followed at all times on the college campus, regardless of caste, creed, and religion.
6. Bringing valuable items like jewellery, electronic gadgets, etc., to the college will be at the sole risk of the students. Management will not be responsible for their theft/loss.
7. Important notices will be posted on the respective notice boards. It is the responsibility of the students to read these notices and to respond immediately if summoned through them. Students are forbidden from tampering with the notice boards.
8. Late arrival and early departure at or from a class will be considered absence from the class. Students are not allowed to leave the campus during working hours without the written sanction of the Principal.
9. Students shall always wear prescribed attire and observe all safety precautions; students will not operate any machinery/equipment or handle any chemical without the prior permission of the instructor. The institute will not be responsible for any accident, of whatever nature, in the institute, hostel, workshop & playground and also during summer/industrial training or educational tour/trip.
10. English will be enforced as the sole medium of communication for the students within the college campus. This is for their better career prospects.
11. Students and teachers greet each other on meeting within the college premises and whenever he/she meets in public.

12. When classes are in session, students shall not enter or leave their respective classrooms without the permission of the teacher concerned.
13. Students are not permitted to use Mobile phones inside the college campus. Photography (both phone & others) is strictly prohibited on the college campus without prior permission. Listening to music from any device inside the college campus is also forbidden.
14. Snacks/lunch should always be had only at the assigned places, and not elsewhere.
15. Browsing is not permitted during lab hours or otherwise from any device, anywhere, on the college campus.
16. Every student shall conduct himself/herself in such a way as to cause no disturbance to the smooth functioning of the classes or to fellow students. There shall be no movement of students in the corridors of the college while a lecture is in progress in the classrooms. When students are moving through corridors, they should observe strict silence during the working hours.
17. Political activism is strictly banned in the college campus as it is detrimental to the teaching-learning process (Vide: W.A.#535 of 2003- Judgement dt. 26/05/2003 of the Hon'ble High Court of Kerala). Rioting/agitating/sloganeering/taking out demonstrations against another group of students; or against members of staff/management for whatsoever reason is strictly prohibited. The right of a student to dissent should not infringe upon the right of other students to attend class and/or of the lecturer to conduct his/her class. Students should also refrain from distributing leaflets/pamphlets/bills inside the college campus without the prior written sanction of the Principal.
18. Students are forbidden to organize or attend any meetings other than those organized by the college on the campus. On no account may outsiders be invited to address the students inside the campus without the prior written sanction of the Principal. Students are also forbidden from inviting or encouraging outsiders to enter the college campus.
19. Students may not organize programmes for collecting funds nor may they make any kind of fund collection on the campus without the explicit prior sanction of the Principal.
20. Bringing or possession of Lethal weapons or firearms is strictly banned in the college campus and hostel.
21. Possession and consumption of tobacco, pan/panmasala, gutkha, alcohol, and narcotic drugs are strictly banned in the college and hostel premises. Students should also strictly refrain from promoting/indulging in the sale or trafficking of any product, whatsoever, within the college premises.
22. Ragging is strictly banned in the college campus and hostel. Ragging means doing

any act, by disorderly conduct, to a student of an educational institution which causes or is likely to cause physical or psychological harm or raise apprehension/fear/shame/embarrassment to that student and includes

- i) Teasing, abusing or playing jokes on, or hurting a student; or
- ii) Asking a student to do any act which that student will not, otherwise, willingly do.

If any incident of ragging comes to the notice of the college authorities, the concerned student (perpetrator) will be given the liberty to explain, and if his/her explanation is not found satisfactory, the perpetrator will be expelled from the institution.

Any complaint received by the college authorities concerning ragging will be promptly forwarded to the police authorities. The college will not be responsible for the criminal proceedings initiated in this regard.

- 23. Gambling is banned within the college and hostel premises.
- 24. Fireworks/crackers of any magnitude should not be set off or exploded within the college/hostel premises without prior permission from the Principal.
- 25. The possession/display/transmission of threatening, obscene, harassing, or indoctrinated materials is strictly forbidden within the college and hostel premises.
- 26. Indecent behaviour towards the opposite sex in the campus will attract stringent action.
- 27. Writing/drawing/sticking of papers on walls, pillars, furniture, doors, windows and washrooms is forbidden. Furniture in the classrooms should not be moved or displaced.
- 28. Vandalism of any kind will be dealt with seriously. In addition to strict disciplinary action, the cost of any damage caused to college property will be recovered from the students who are responsible for the damage or through a collective fine covering all students.
- 29. Students must make all possible efforts to conserve electricity and water. Students are advised to switch off fans and lights when they leave the classrooms.
- 30. Everyone is free to follow and practice the religion of his/her choice privately but, since this college is a Christian Minority Institution, external worship other than that of the Christian faith will not be allowed on the college campus or in the hostel.
- 31. Students have to take without fail all the necessary items such as hall ticket, admit card, pen, pencil, calculator, scale, eraser, etc., to the test/exam hall. Borrowing won't be encouraged.
- 32. Students will have to sit through the entire duration of time scheduled for the internal tests and university examinations.
- 33. In the event of continued poor performance in internal tests and poor class attendance

by any student, the Principal has the authority to withhold permission for him/her to write the university examinations.

34. The Executive Director/Principal reserves the right to modify any of the institute rules as and when necessary. The decision of the Executive Director/Principal in all matters shall be final.

TRANSPORTATION

35. All traffic rules should be followed by students in & out of the college campus. The Speed of vehicles on the college campus shall not exceed 20 km/hr. Students need to furnish a copy of their driver's license & possess a valid vehicle pass issued by the college to park their vehicles within the campus. Parking will solely be at the student's risk. Only 2-wheelers can be parked inside the college premises. No student shall park 4-wheelers on the campus without the requisite permission from the college authorities.

36. Everybody should maintain discipline in the college bus. Don't talk or discuss anything with the Bus Driver while he is driving. Avoid using foul language, whistling, hooting, yelling, or singing aloud in the bus. Always follow the instructions given by the Bus Coordinator.

37. Every student should have his/her valid College ID card to travel in the bus. He/she should show the ID card issued by the authority as and when requested by the Bus Coordinator or by an authorized representative of the College.

38. Nobody should play songs loudly on any electronic device within the college bus. However, they may use earphones to listen to music.

39. The departure timing (Bus Schedule) will be strictly followed by the Bus Driver at each point. No personal request/excuses will be considered. The decision of the Bus Coordinator will be final in this regard.

40. In the event of a breakdown, students on board the bus must remain within the bus until alternative transport arrangements have been made available. The Bus Coordinator will provide all necessary instructions.

41. Smoking and consuming prohibited substances in the college bus is strictly prohibited.

42. Students should not dispose of waste papers/wrappers or other articles in/from the bus.

LIBRARY RULES

The Central Library at Christ College of Engineering acts as a knowledge hub for the academic activities of our institution with a mission to provide a knowledge gateway to the user community.

RULES & REGULATIONS

- Silence is to be strictly observed in the library at all times.
- Students without their identity card cannot enter the library.
- Library books will be issued only against Identity Cards.
- Students can borrow a maximum of 3 books at a time.
- Staff members can borrow a maximum of 5 books at a time.
- Books borrowed from the library must be returned within 14 days. Students can renew the issued books for two weeks. Books returned after the due date will be charged an overdue charge of Re.1/- per day. The due date is marked on the date label inside the book.
- Damaging or tearing out pages from any library book shall not be accepted, and it will have to be replaced.
- If any Library book is lost by the borrower, the double cost of the book will be collected.
- Periodicals, journals, and reference books will not be permitted to be taken outside the library.
- Personal books and belongings will not be permitted inside the library. Please use the Property Counter.
- To provide an environment conducive to using the library, please conduct cell phone conversations away from the library.
- The library will be open on all working days.

Library Timings:

- The library shall function according to the timings notified by the institution.
- Timing is 7:45 am to 5:00 pm, Monday – Friday
9:00 am – 3:00 pm on Saturdays

The library may remain closed on holidays or during special institutional requirements.

- The competent authority will take necessary action against the users who violate the library rules and regulations.

SERVICES & FACILITIES

- Online Public Access Catalogue (OPAC) is available for searching the library holdings.
- A sufficient number of systems are available here as part of our Digital Library.
- Printing facility is available to the staff and students on request.
- Previous year's Question Papers are available in the library.
- For additional library facilities and services, feel free to contact the Librarian.

HOSTEL STANDARDS AND EXPECTATIONS

1. GENERAL RULES

1. Admission to the hostel shall be valid for one academic year only. All students are required to reapply for hostel accommodation for each subsequent academic year. Continuation of stay will be granted based on satisfactory academic performance, good conduct, and adherence to hostel rules and regulations. Students who fail to meet the required academic standards may not be eligible for continuation of hostel accommodation.
2. Every resident shall produce a valid identity card while within the hostel premises and the college campus, and must present it for verification whenever requested by the hostel or college authorities.
3. All students are expected to maintain a high standard of behaviour and shall show due respect and courtesy towards the hostel authorities, staff members, and fellow residents at all times.
4. Discipline, order, and decorum must be maintained within the hostel premises to ensure a peaceful and academically conducive environment for all.
5. Ragging in any form is strictly prohibited within the hostel and college campus. Any student found involved in such activities will be subjected to strict disciplinary action, including termination of hostel accommodation, in accordance with institutional rules and legal regulations.
6. The possession, consumption, or distribution of smoking materials, alcohol, or any form of drugs and intoxicants is strictly forbidden within the hostel premises. Violation of this rule will result in strict disciplinary action, including possible expulsion.
7. The use or keeping of personal vehicles by hostel residents is not permitted. Students are advised to use authorized transportation facilities only.
8. Residents shall not leave the hostel premises without prior permission from the Warden. All movements must be properly recorded in the prescribed register or system.
9. Visitors are not permitted inside the hostel without prior approval. Entry of visitors is restricted to designated areas and timings only.
10. Students are strictly prohibited from allowing unauthorized persons to stay in or enter the hostel premises.
11. Each resident shall be responsible for the safety of her personal belongings. The hostel authorities shall not be held responsible for any loss or damage.
12. Students shall not use or handle the belongings of others without their consent.

13. Residents are required to maintain their rooms in a clean, neat, and orderly manner at all times, reflecting a professional and disciplined living environment. Any damage caused to hostel property or facilities will be viewed seriously, and the cost of repair or replacement shall be recovered from the concerned resident(s).
14. Wastage of electricity and water is strictly discouraged. Lights, fans, and other electrical appliances must be switched off when not in use.
15. Cooking inside rooms is strictly prohibited. Students must use only the designated areas and facilities provided by the hostel.
16. Playing music at a loud volume, creating excessive noise, or engaging in any activity that disturbs other residents is not permitted.
17. The Warden or authorized personnel reserve the right to inspect rooms at any time to ensure compliance with hostel rules.
18. Students must maintain cleanliness not only in their rooms but also in common areas and hostel surroundings.
19. Any maintenance issues such as electrical, plumbing, or carpentry work must be reported to the hostel authorities promptly.
20. Organizing meetings, celebrations, or any form of group activity within the hostel premises requires prior permission from the Warden.
21. Gambling, betting, or involvement in any unlawful activities within the hostel premises is strictly prohibited.
22. Residents shall not engage in any behavior that may disturb the peace of the neighbourhood or bring disrepute to the institution.
23. Students must strictly adhere to all safety regulations and instructions issued by the hostel authorities from time to time.
24. Violation of any of the above rules will invite disciplinary action, which may include warning, fine, suspension, or expulsion from the hostel, depending on the severity of the offense.
25. To avoid loss or theft of valuables, hostel residents are advised not to keep large amounts of money in their rooms or on their person. All payments and financial transactions related to the hostel shall be made only through Etlab or the College Office, and students are requested to obtain an official receipt for every payment made.

2. TIMINGS

1. All residents must return to the hostel on or before 6:30 PM (in-time). Strict adherence to this timing is mandatory. However, the in-time may be revised or modified by the hostel administration whenever deemed necessary.
2. Students are permitted to leave the hostel from 6:00 AM onwards (out-time).
3. Entry into the hostel after the prescribed in-time is strictly restricted. Late entry will be permitted only with prior approval from the Warden or authorized authorities.
4. Residents must record their entry and exit in the designated register or system as instructed by the hostel administration.

3. STUDY TIME

1. Study hours shall be observed from 8:30 PM to 10:30 PM on all working days (Monday to Friday).
2. All residents must remain in their rooms or designated study areas during the study time.
3. Students are expected to engage only in academic activities during this period.
4. Strict silence must be maintained to ensure a peaceful study environment in the living area.
5. Use of mobile phones for calls is strictly prohibited during study hours.
6. Any form of disturbance to other students during study time will not be tolerated.

4. DRESS CODE

1. All residents are expected to dress modestly and appropriately at all times, both within the hostel premises and while going outside.
2. Residents must ensure that their dress reflects dignity, discipline, and respect for the institution and fellow students.

5. LEAVE RULES

1. Prior permission from the Warden is mandatory to leave the hostel.
2. On working/class days, students must also take permission from the college authority before leaving the hostel.
3. Students are not allowed to stay in the hostel during class hours without permission from both the college and hostel authorities.
4. Parents/guardians' consent is required for overnight or long leave.
5. Late return without prior approval will lead to disciplinary action.
6. In case of emergency, the Warden must be informed immediately.
